Subject to the section titled “Transition to New Connection Horizon and Revenue Horizon Rules” below, the text of the footnote associated with paragraph (d) under the heading “Specific Parameters/Assumptions” in Part B.1 of Appendix B to the Distribution System Code is amended by deleting the words “five year”.

8. Subject to the section titled “Transition to New Connection Horizon and Revenue Horizon Rules” below, Part B.1 of Appendix B to the Distribution System Code is amended by adding the following immediately after paragraph (d) under the heading “Specific Parameters/Assumptions”:

Rules for Determining the Customer Connection Horizon and the Customer Revenue Horizon

In this section:

“housing development” means a project to construct multiple residential accommodations on a piece of land that will be divided into multiple parcels and offered for sale, and that will be comprised predominantly of residential accommodations but may also include public buildings, industrial and commercial buildings or space appropriate for such buildings;

“qualifying housing development” means a housing development that meets the following criteria:

- (a) the developer for the housing development has requested a customer connection horizon that exceeds five (5) years;
- (b) the connection of the last residential customer in the housing development is forecast to occur more than five (5) years from the date of energization of the facilities;
- (c) the developer has provided the distributor with:
 - i. an approved plan of subdivision for the housing development; and
 - ii. evidence that the developer owns the land on which the housing development will be built or has written authorization to build the housing development on that land from the landowner; and
- (d) an initial offer to connect the housing development had not been accepted by the developer on or before November 18, 2024.

Customer Connection Horizon

- (a) The customer connection horizon begins on the energization date of the facilities.
- (b) Subject to paragraph (c), the customer connection horizon for a qualifying housing development shall be based on the date on which the last residential customer is forecasted to connect to the expansion, provided that the customer connection horizon shall not exceed fifteen (15) years.
- (c) Where an expansion is being constructed to connect a qualifying housing development and one or more other customers, the customer connection horizon for all such customers shall be the longest customer connection horizon applicable to any one of them.
- (d) In all other cases, the customer connection horizon is five (5) years. A distributor may extend the customer connection horizon in appropriate cases for up to 15 years, in which case the distributor will provide the Board with an explanation for the extension.

Customer Revenue Horizon²

- (a) The maximum customer revenue horizon for a non-residential connection is twenty-five (25) years, calculated from the forecast in-service date of the first new customer connection.
- (b) Subject to paragraph (c), the customer revenue horizon is forty (40) years for the connection of any of the following:
 - i. A residential customer, calculated from the forecast in-service date of the new customer connection;
 - ii. A property as defined in the *Condominium Act*, a residential complex as defined in the *Residential Tenancies Act, 2006* or a property that includes one or more dwellings and that is owned or leased by a co-operative as defined in the *Co-operative Corporations Act*, whether bulk metered or suite metered (as defined in the *Energy Consumer Protection Act, 2010*), calculated from the forecast in-service date of the new building connection; and
 - iii. A housing development, calculated from the forecast in-service date of the first residential customer connection.
- (c) Where an initial offer to connect was accepted by the developer or other customer on or before November 18, 2024, the customer revenue horizon set out in paragraph (b) does not apply and the maximum customer revenue horizon is twenty-five (25) years, calculated from the forecast in-service date of the first new customer connection.

²For the economic evaluation of a specific project, revenues should be calculated based on the forecasted customer or load additions within the customer connection horizon. For example, if customer additions are forecasted in year 3, the economic evaluation model should account for incremental revenues from year 3 through year 25. This approach applies to paragraphs (a) through (c).

- 9. Part B.1 of Appendix B to the Distribution System Code is amended by adding the following immediately after the new section titled “Rules for Determining the Customer Connection Horizon and the Customer Revenue Horizon”:

Transition to new Connection and Revenue Horizon Rules

Despite the coming into force of amendments to Part B.1 of Appendix B to the Distribution System Code on December 23, 2024, a distributor may continue to apply the provisions of Part B.1 as they existed immediately prior to that date in determining the connection or revenue horizon until and including March 2, 2025.

During this transition period, a distributor shall consistently apply either the provisions as they existed immediately before December 23, 2024 or the provisions as they were amended effective December 23, 2024.

- 10. Appendix B of the Distribution System Code is amended as follows:
 - The phrase “Customer Connection Horizon” wherever it appears other than in a title is replaced with the phrase “customer connection horizon”;
 - The phrase “Customer Revenue Horizon” wherever it appears other than in a title is replaced with the phrase “customer revenue horizon”;

- The letter “d” is deleted from the end of the word “overheads” in item (b) under the heading “Net Present Value (“NPV”) in Part B.2; and
- The phrase “Annual Municipal Tax B” in item (b) under the heading “Net Present Value (“NPV”) in Part B.2 is replaced with the phrase “Annual Municipal Tax -”.

PLEASE NOTE:

Tax Sales are not typical real estate transactions. If you are considering participating in a tax sale, it is highly recommended that you seek independent legal advice from a lawyer licensed to practice in Ontario and in good standing with the Law Society of Upper Canada.

In addition, it is not permitted to enter upon a property that is advertised for tax sale. These are not typical real estate transactions. Entering upon a property advertised for tax sale proceedings is considered to be trespassing.

Before you submit a tender for a tax sale property, be aware of the following:

1. This process is buyer beware. You must undertake due diligence with respect to all aspects of the property.
2. You may drive past the property, but site visits are not available.
3. There is no vacant possession. The successful bidder will not receive a key to the property. The successful bidder is responsible for the eviction process if necessary.
4. You are responsible for any Federal or Provincial liens on title. We recommend you do a title search before submitting your bid.
5. You should investigate zoning, planning or building restrictions, and work orders.
6. You are responsible for any environmental concerns if there are contamination issues with the property.
7. The onus is on you to conduct your own inquiries for water/hydro and other arrears.
8. **You should retain a lawyer to protect your interests before submitting a bid.**
