$$\$31 \text{ million} \times G/H$$

in which,

“G” is the amount of the solvency liability of the pension plan as set out in the most recently filed report for the pension plan, and

“H” is the aggregate amount of the solvency liability of both pension plans as set out in the most recently filed reports for the pension plans.

(16) In the formulas set out in subsections (11), (13) and (15),
