AMENDMENTS TO ONTARIO SECURITIES COMMISSION RULE 91-507 *TRADE REPOSITORIES AND DERIVATIVES DATA REPORTING*

On September 9, 2014, amendments to Ontario Securities Commission Rule 91-507 *Trade Repositories and Derivatives Data Reporting* will become effective under the *Securities Act*.

The purpose of Ontario Securities Commission Rule 91-507 *Trade Repositories and Derivatives Data Reporting* is to improve transparency in the derivatives market and to ensure that designated trade repositories operate in a manner that promotes the public interest. Derivatives data is essential for effective regulatory oversight of the derivatives market, including the ability to identify and address systemic risk and the risk of market abuse. Derivatives data reported to designated trade repositories will also support policy-making by providing regulators with information on the nature and characteristics of the Canadian derivatives market.

The amendments permit certain market participants to benefit, in limited circumstances, from substituted compliance under CFTC Swap Data Reporting Rules. Further, the amendments modify the data reporting fields to bring them in line with international reporting standards and to facilitate the technological constraints of market infrastructure. In addition, the amendments facilitate single-sided reporting of derivatives data by permitting parties, subject to certain conditions, to use an industry standard methodology for determining the reporting counterparty.

The full text of the amendments is available in the Ontario Securities Commission's Bulletin at (2014) 37 OSCB 7559 and on the Commission's website at www.osc.gov.on.ca.
