Proclamation

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith.

STRONG ACTION FOR ONTARIO ACT (BUDGET MEASURES), 2012

We, by and with the advice of the Executive Council of Ontario, name September 10, 2013 as the day on which Schedule 5 of the *Strong Action for Ontario Act (Budget Measures), 2012*, c. 8, which amends the *Business Regulation Reform Act, 1994*, comes into force.

WITNESS:

THE HONOURABLE
DAVID C. ONLEY
LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO

GIVEN at Toronto, Ontario, on August 28, 2013.

BY COMMAND

JOHN CHRISTOPHER MILLOY
Minister of Government Services

ELIZABETH DEUX, par la grâce de Dieu, Reine du Royaume-Uni, du Canada et de ses autres royaumes et territoires, Chef du Commonwealth, Défenseur de la Foi.

LOI DE 2012 SUR UNE ACTION ÉNERGIQUE POUR L'ONTARIO (MESURES BUDGÉTAIRES)

Sur l'avis du Conseil exécutif de l'Ontario, nous fixons le 10 septembre 2013 comme jour d'entrée en vigueur de l'annexe 5 de la *Loi de 2012 sur une action énergétique pour l'Ontario (mesures budgétaires)*, chap. 8, qui modifie la *Loi de 1994 portant réforme de la réglementation des entreprises*.

TÉMOIN:

L'HONORABLE
DAVID C. ONLEY
LIEUTENANT-GOUVERNEUR DE NOTRE PROVINCE DE L'ONTARIO

FAIT à Toronto (Ontario) le 28 août 2013.

PAR ORDRE

(146-G419) JOHN CHRISTOPHER MILLOY
ministre des Services gouvernementaux

Ontario Highway Transport Board

Periodically, temporary applications are filed with the Board. Details of these applications can be made available at anytime to any interested parties by calling (416) 326-6732.

The following are applications for extra-provincial and public vehicle operating licenses filed under the Motor Vehicle Transport Act, 1987, and the Public Vehicles Act. All information pertaining to the applicant i.e. business plan, supporting evidence, etc. is on file at the Board and is available upon request.

Any interested person who has an economic interest in the outcome of these applications may serve and file an objection within 29 days of this publication. The objector shall:

1. complete a Notice of Objection Form,
2. serve the applicant with the objection,

3. file a copy of the objection and provide proof of service of the objection on the applicant with the Board,
4. pay the appropriate fee.

Serving and filing an objection may be effected by hand delivery, mail, courier or facsimile. Serving means the date received by a party and filing means the date received by the Board.

LES LIBELLÉS DES DEMANDES PUBLIÉES CI-DESSOUS SONT AUSSI DISPONIBLES EN FRANÇAIS SUR DEMANDE.

Pour obtenir de l'information en français, veuillez communiquer avec la Commission des transports routiers au 416-326-6732.

Francesco's Coach Inc. 47543
305 Rexdale Blvd., Toronto, ON M9W 1R8

Applies for an extra provincial operating licence as follows:

For the transportation of passengers on a chartered trip from points in the Cities of Toronto and Hamilton, and the Regional Municipalities of Peel, York, Durham, Halton, Waterloo and Niagara to the Ontario/Quebec and

the Ontario/USA border crossings for furtherance to points as authorized by the relevant jurisdiction and for the return of the same passengers on the same chartered trip to point of origin.
PROVIDED THAT there be no pick up or discharge of passengers except at point of origin.

47543-A

Applies for a public vehicle operating licence as follows:

For the transportation of passengers on a chartered trip from points in the Cities of Toronto and Hamilton, and the Regional Municipalities of Peel, York, Durham, Halton, Waterloo and Niagara.

(146-G420) FELIX D'MELLO
Board Secretary/Secrétaire de la Commission

Government Notices Respecting Corporations Avis du gouvernements relatifs aux compagnies

Notice of Default in Complying with the Corporations Tax Act Avis de non-observation de la Loi sur l'imposition des sociétés

The Director has been notified by the Minister of Finance that the following corporations are in default in complying with the *Corporations Tax Act*.

NOTICE IS HEREBY GIVEN under subsection 241(1) of the *Business Corporations Act*, that unless the corporations listed hereunder comply with the requirements of the *Corporations Tax Act* within 90 days of this notice, orders will be made dissolving the defaulting corporations. All enquiries concerning this notice are to be directed to Ministry of Finance, Corporations Tax, 33 King Street West, Oshawa, Ontario L1H 8H6.

Le ministre des Finances a informé le directeur que les sociétés suivantes n'avaient pas respecté la *Loi sur l'imposition des sociétés*.

AVIS EST DONNÉ PAR LA PRÉSENTE que, conformément au paragraphe 241(1) de la *Loi sur les sociétés par actions*, si les sociétés citées ci-dessous ne se conforment pas aux prescriptions énoncées par la *Loi sur l'imposition des sociétés* dans un délai de 90 jours suivant la réception du présent avis, lesdites sociétés se verront dissoutes par décision. Pour tout renseignement relatif au présent avis, veuillez vous adresser à l'Imposition des sociétés, ministère des Finances, 33, rue King ouest, Oshawa ON L1H 8H6.

ONTARIO ENERGY BOARD

Final Amendments to the Distribution System Code

The Distribution System Code is amended by adding new section 8 as follows:

8. Regional Planning

8.1 Definitions

8.1.1 In this section 8:

“Integrated Regional Resource Plan” means a document prepared by the OPA that identifies the appropriate mix of investments in one or more of conservation and demand management, generation, transmission facilities or distribution facilities in order to address the electricity needs of a region in the near- (up to 5 years), mid- (5 to 10 years), and long-term (more than 10 and up to 20 years);

“integrated regional resource planning process” means a planning process led by the OPA for the purpose of determining the appropriate mix of investments in one or more of conservation and demand management, generation, transmission facilities or distribution facilities in order to address the electricity needs of a region in the near- (up to 5 years), mid- (5 to 10 years), and long-term (more than 10 and up to 20 years);

“lead transmitter” means a transmitter that is leading a regional planning process or is involved in a scoping assessment or an integrated regional resource planning process in a region;

“needs assessment” means a process led by a lead transmitter in accordance with section 3C of the Transmission System Code to determine if regional planning is required for a region;

“region” means an area that has been designated as such by a lead transmitter, in consultation with the OPA, under section 3C.2.2(a) of the Transmission System Code for regional planning purposes;

“Regional Infrastructure Plan” means a document prepared by the lead transmitter leading a regional infrastructure planning process that identifies investments in transmission facilities, distribution facilities or both that should be developed and implemented on a coordinated basis to meet the electricity infrastructure needs within a region;

“regional infrastructure planning process” means a planning process led by a lead transmitter in accordance with section 3C of the Transmission System Code for the purpose of determining the investments in transmission facilities, distribution facilities or both that should be developed and implemented on a coordinated basis to meet the electricity infrastructure needs within a region;

“regional planning” means a planning process involving licensed transmitter(s), licensed distributor(s), and the OPA for the purpose of determining whether a Regional Infrastructure Plan and/or an Integrated Regional Resource Plan is required for a region and, where required, developing or updating a Regional Infrastructure Plan and/or an Integrated Regional Resource Plan;

“scoping assessment” means a process led by the OPA to determine the form of regional planning process (regional infrastructure planning process or integrated regional resource planning process) that is required for a region; and

“transmission-connected distributor” means a distributor whose distribution system is connected to the transmission system of a licensed transmitter.

8.2 Participation in Regional Planning

8.2.1 A transmission-connected distributor shall participate in regional planning upon being requested to do so by the transmitter that is leading a regional infrastructure planning process or by the OPA that is leading a scoping assessment or an integrated regional resource planning process for the region within which the distributor's licensed service area is located, in whole or in part, and shall do so to such extent and in such manner as may reasonably be required by the lead transmitter or the OPA.

2

Ontario Energy Board

- 8.2.2 An embedded distributor shall participate in regional planning upon being requested to do so by its host distributor or by the lead transmitter for the region within which the embedded distributor's licensed service area is located, in whole or in part, and shall do so to such extent and in such manner as may reasonably be required by the host distributor or the transmitter.

8.3 Provision of and Requests for Information

- 8.3.1 A transmission-connected distributor shall provide the following to the lead transmitter for the region within which the distributor's licensed service area is located, in whole or in part:
- (a) such information as the lead transmitter may from time to time reasonably require to support regional planning, and shall do so within 60 days of receipt of the lead transmitter's request; and
 - (b) prompt notice of any developments in that part of the region in which its licensed service area is located that may trigger the need for investments in transmission facilities, distribution facilities or both, as applicable, or that may otherwise reasonably be expected to affect the lead transmitter's conduct of a needs assessment for the region.

Where the distributor is a host distributor, the information provided to the lead transmitter shall reflect any information provided to it by any of its embedded distributors under section 8.3.4.

- 8.3.2 A transmission-connected distributor shall provide the OPA with such information as the OPA may from time to time reasonably require, for the purpose of supporting regional planning, and shall subject to section 8.3.3 do so within 30 days of receipt of the OPA's request. Where the distributor is a host distributor, the information provided to the OPA shall reflect any information provided to it by any of its embedded distributors under section 8.3.4.
- 8.3.3 Where a transmission-connected distributor believes that it cannot meet the 30-day timeline referred to in section 8.3.2, the distributor and the OPA may agree to a longer timeline. In such a case, the distributor shall so notify the Board in writing. The notice shall indicate the region in question, the reasons for being unable to meet the 30-day timeline and the extended timeline that has been agreed to between the distributor and the OPA.
- 8.3.4 An embedded distributor shall provide its host distributor with the following:
- (a) such information as may from time to time reasonably be required by the host distributor to support regional planning, and shall do so within 15 days of receipt of the request for information; and
 - (b) prompt notice of any developments in that part of the region in which its licensed service area is located that may trigger the need for investments in transmission facilities, distribution facilities or both, as applicable, or that may otherwise reasonably be expected to affect a lead transmitter's conduct of a needs assessment for the region.
- 8.3.5 Where a transmission-connected distributor provides information to a lead transmitter or the OPA under section 8.3.1 or 8.3.2 in respect of a region, the distributor shall also provide the same information to all other transmission-connected distributors in the region. Each host distributor that receives information under this section shall provide that information to each of its embedded distributors.
- 8.3.6 Where, for the purpose of supporting an application proposed to be filed with the Board, a distributor requires information related to the status of regional planning for a region, including any Regional Infrastructure Plan that is being developed for the region, the transmission-connected distributor or embedded distributor shall request a letter confirming the status from the lead transmitter for the region no less than 60 days before the distributor requires the letter.
- 8.3.7 Where a needs assessment determines that the participation of a distributor in a regional planning process is not necessary, the distributor shall request a needs assessment report from the lead transmitter confirming that its involvement is not required no less than 10 days before the embedded distributor requires the report for the purpose of supporting an application proposed to be filed with the Board.

8.4 Monitoring and Reporting

- 8.4.1 Where a Regional Infrastructure Plan identifies the need for a distributor to make an investment in its distribution system, the distributor shall, upon request by the lead transmitter or host distributor or by a distributor referred to in section 8.4.2, provide an update regarding the status of the investment, and shall do so within 30 days of receipt of the request. Where the distributor is a host distributor, the letter shall reflect any investment update(s) provided to it by any of its embedded distributor(s).
- 8.4.2 Where a distributor has agreed to conduct the review referred to in section 3C.3.1(a) of the Transmission System Code, the distributor shall provide a report to the lead transmitter setting out the status of the investments set out in the applicable Regional Infrastructure Plan within 60 days of receipt of a request from the transmitter to do so.

8.5 Transition

- 8.5.1 A transmission-connected distributor shall, within 45 days of receipt of a request from a lead transmitter, provide the transmitter with a letter identifying whether the distributor foresees a potential need for additional transmission connection capacity to support the needs of the distributor's distribution system over the next five years. Where the distributor is a host distributor, the letter shall reflect any information provided to it by any of its embedded distributors under section 8.5.3.

- 8.5.2 Where a transmission-connected distributor provides a letter to a lead transmitter under section 8.5.1 in respect of a region, the distributor shall also provide the same information to all other transmission-connected distributors in the region. Each host distributor that receives a letter under this section shall provide that letter to each of its embedded distributors.
- 8.5.3 An embedded distributor shall, within 15 days of receipt of a request from its host distributor, provide its host distributor with a letter identifying whether the embedded distributor foresees a potential need for additional transmission capacity to support the needs of the embedded distributor's distribution system over the next five years.
- 8.6 Continuing Obligations Re Distribution System**
- 8.6.1 Nothing in this section 8 shall limit any obligation of the distributor to maintain the reliability and integrity of its distribution system or to meet load growth within its licensed service area.

(146-G430)

ONTARIO ENERGY BOARD

Final Amendments to the Transmission System Code

I. Regional Planning Process

- Section 3 of the Transmission System Code is amended by adding new section 3C immediately after section 3B as follows:

3C. Regional Planning

3C.1 Definitions and Lead Responsibility Where More than One Transmitter in a Region

3C.1.1 For the purposes of this section 3C:

“Integrated Regional Resource Plan” means a document prepared by the OPA that identifies the appropriate mix of investments in one or more of conservation and demand management, generation, transmission facilities or distribution facilities in order to address the electricity needs of a region in the near- (up to 5 years), mid- (5 to 10 years), and long-term (more than 10 and up to 20 years);

“integrated regional resource planning process” means a planning process led by the OPA for the purpose of determining the appropriate mix of investments in one or more of conservation and demand management, generation, transmission facilities or distribution facilities in order to address the electricity needs of a region in the near- (up to 5 years), mid- (5 to 10 years), and long-term (more than 10 and up to 20 years);

“needs assessment” means a process led by a transmitter to determine if regional planning is required for a region;

“region”, in respect of a transmitter, means an area within which the transmitter’s transmission system is located, in whole or in part, and that has been designated as such by the transmitter, in consultation with the OPA, under section 3C.2.2(a) for regional planning purposes;

“Regional Infrastructure Plan” means a document prepared by the transmitter leading a regional infrastructure planning process that identifies investments in transmission facilities, distribution facilities or both that should be developed and implemented on a coordinated basis to meet the electricity infrastructure needs within a region;

“regional infrastructure planning process” means a planning process led by a transmitter in accordance with this section 3C for the purpose of determining the investments in transmission facilities, distribution facilities or both that should be developed and implemented on a coordinated basis to meet the electricity infrastructure needs within a region;

“regional planning” means a planning process involving licensed transmitter(s), licensed distributor(s), and the OPA for the purpose of determining whether a Regional Infrastructure Plan and/or an Integrated Regional Resource Plan is required for a region and, where required, developing or updating a Regional Infrastructure Plan and/or an Integrated Regional Resource Plan; and

“scoping assessment” means a process led by the OPA to determine the form of regional planning process (regional infrastructure planning process or integrated regional resource planning process) that is required for a region.

3C.1.2 For the purposes of this section 3C, where the transmission system of more than one licensed transmitter is connected to customers in a region, the applicable transmitters shall determine which among them will be responsible for leading the regional infrastructure planning processes for the region at any given time. The applicable transmitters shall make that determination within 30 days of August 26, 2013, and may agree to change that determination from time to time thereafter. The transmitter that has been so designated at any given time shall be responsible for complying with the obligations set out in this section 3C. The other transmitter(s) shall participate in any regional infrastructure planning process or integrated regional resource planning process for the region as reasonably required by the lead transmitter or the OPA, as applicable, but shall not otherwise be required to comply with the obligations set out in this section 3C.

3C.2 Obligation to Lead Regional Infrastructure Planning Process

3C.2.1 A transmitter shall, in consultation with the OPA and with all applicable licensed distributors and licensed transmitters in a region, lead a regional infrastructure planning process for each region and participate in any integrated regional resource planning process for the region.

3C.2.2 For the purposes of section 3C.2.1, a transmitter shall:

- (a) review the boundaries of the regions, in consultation with the OPA, no less than once every five years to determine whether they need to be modified;
- (b) from time to time as required, and on a timely basis, request information from all licensed distributors and licensed transmitters in a region and from the OPA that the transmitter considers is reasonably required for the purpose of undertaking a needs assessment in relation to the region;
- (c) for each region, conduct a needs assessment at least every five years, and more frequently if required by reason of forecasted load or demand growth within a distributor's licensed service area, request(s) for connection received by the transmitter or other events that the transmitter believes may trigger the need for investment in transmission facilities, distribution facilities or both in a region. The needs assessment for a region shall be completed within 60 days of receipt of the information referred to in section 3C.2.2(b);
- (d) within 10 days of completion of a needs assessment for a region, provide a report to the OPA, the IESO, and all licensed distributors and licensed transmitters within the region that reflects the results of the needs assessment, including the identity of the licensed distributors that will and will not need to be involved in further regional planning activities for the region, and post that report on its website;
- (e) where a needs assessment for a region indicates that a scoping assessment is required, participate in the scoping assessment as may be reasonably required by the OPA;
- (f) where a scoping assessment identifies that a regional infrastructure planning process is required for a region, complete or update a Regional Infrastructure Plan for the region within six months of the date of receipt of the scoping assessment from the OPA, and post the Regional Infrastructure Plan on its website upon its completion;
- (g) where a scoping assessment identifies that an integrated regional resource planning process is required for a region,
 - (i) participate in the integrated regional resource planning process as may be reasonably required by the OPA, and (ii) subject to section 3C.2.3, provide the OPA with such information as the OPA may from time to time reasonably require for the purposes of the integrated regional resource planning process within 30 days of receipt of a request by the OPA for the information; and
- (h) within 45 days of receipt of a request to do so, provide a letter to a licensed distributor or a licensed transmitter confirming the status of regional planning for a region, including any Regional Infrastructure Plan that is being developed for the region that includes the distributor's licensed service area or within which the requesting transmitter's transmission system is located, suitable for the purpose of supporting an application proposed to be filed with the Board by the distributor or requesting transmitter.

3C.2.3 Where a transmitter believes that it cannot meet the 30-day timeline referred to in part (ii) of section 3C.2.2(g), the transmitter and the OPA may agree to a longer timeline. In such a case, the transmitter shall so notify the Board in writing. The notice shall indicate the region in question, the reasons for being unable to meet the 30-day timeline and the extended timeline that has been agreed to between the transmitter and the OPA.

3C.3 Monitoring and Reporting

3C.3.1 Subject to section 3C.3.2, a transmitter shall, in consultation with the OPA and with all applicable licensed distributors and licensed transmitters in a region for which a Regional Infrastructure Plan has been completed, undertake a review every 12 months following the completion of the Regional Infrastructure Plan for the purpose of determining:

- (a) whether the investments in transmission facilities, distribution facilities or both, as applicable, identified in the Regional Infrastructure Plan are being implemented in accordance with the schedule set out in the Plan; and
- (b) whether the Regional Infrastructure Plan needs to be updated in advance of the next scheduled needs assessment for the region.

3C.3.2 Where a Regional Infrastructure Plan for a region includes only investments in distribution facilities, a transmitter may make arrangements for a licensed distributor in the region to conduct the review referred to in section 3C.3.1(a) rather than conducting the review itself. In such a case, the transmitter shall request a report from the distributor setting out the status of the investments set out in the Regional Infrastructure Plan at least 60 days in advance of the filing of the annual status report referred to in section 3C.3.3.

3C.3.3 A transmitter shall submit an annual report to the Board, on November 1st of each year, that identifies the status of regional planning for all regions, and shall post the report on its website. The report shall include the status of investments in conservation and demand management, generation or both for each region for which an Integrated Regional Resource Plan

has been completed, provided that this information has been provided to the transmitter by the OPA no later than October 1st of the year.

3C.4 Transition

- 3C.4.1 A transmitter shall, within 10 days of August 26, 2013, request from each licensed distributor whose distribution system is connected to its transmission system a letter identifying whether the distributor foresees a potential need for additional transmission connection capacity to support the needs of the distributor's distribution system and of the distribution system of any of that distributor's embedded licensed distributors over the next five years.
- 3C.4.2 A transmitter shall, within 90 days of August 26, 2013, complete a review of all regions to prioritize them based on the anticipated timing of the need for investment in transmission facilities, distribution facilities or both. Every 12 months following August 26, 2013, the transmitter shall review the prioritization of regions and revise it as required to reflect emerging needs in the regions. The transmitter shall maintain a priority list, post it on its website and update it as required to reflect any changes in prioritization.
- 3C.4.3 A transmitter shall, within 10 days of completing a review referred to in section 3C.4.2:
- (a) notify the licensed distributors and licensed transmitters within a region regarding whether they need to be involved in regional planning for the region; and
 - (b) provide a report to the OPA identifying whether regional planning is required for each region and, where it is required, the identity of the licensed distributors and licensed transmitters in the region that need to be involved in regional planning for the region.
- 3C.4.4 A transmitter shall undertake a needs assessments for each region in accordance with the priority list referred to in section 3C.4.2. Within four years of August 26, 2013, the transmitter shall complete a needs assessment for all regions, and complete a Regional Infrastructure Plan for each region where one is required.

II. Facilitating Regional Planning and Regional Infrastructure Plan Execution

1. Otherwise Planned and Refund Issue

1. Section 3 of the Transmission System Code is amended by adding new section 3B immediately after section 3A as follows:

3B. Reliability and Integrity of Transmission System

- 3B.1 A transmitter shall, in accordance with the Act, its licence and this Code, maintain the reliability and integrity of its transmission system and reinforce or expand its transmission system as required to meet load growth.
2. Section 6.1.4(i) of the Transmission System Code is amended by deleting the phrase "plans required by section 6.3.6 that cover" and replacing it with the phrase "Regional Infrastructure Plan or the Integrated Regional Resource Plan referred to in section 3C, if any, that covers", such that the section reads as follows:

6.1.4 A transmitter's connection procedures referred to in section 6.1.3 shall include the following:

...

 - (i) an obligation on the transmitter to provide a customer with the most recent version of the Regional Infrastructure Plan or the Integrated Regional Resource Plan referred to in section 3C, if any, that covers the applicable portion of the transmitter's transmission system.
 3. Section 6.2.3 of the Transmission System Code is amended by replacing the phrase "section 6.2.24, 6.3.9 or 6.3.17" with the phrase "section 6.3.9 or 6.3.17A", such that the section reads as follows:

6.2.3 Where an economic evaluation, including an economic evaluation referred to in section 6.3.9 or 6.3.17A, was conducted by a transmitter for a load customer in relation to a connection facility on the basis of a load forecast, that customer's contracted capacity shall, during the economic evaluation period to which the economic evaluation relates, be equal to the load identified in that load forecast or in any subsequent forecast used for purposes of giving effect to the true-up provisions of section 6.5.
 4. The Transmission System Code is amended by deleting sections 6.2.24, 6.2.25 and 6.3.6.
 5. Section 6.3.17 of the Transmission System Code is deleted and replaced with the following:

6.3.17 Where a customer has made a capital contribution for the construction or modification of a transmitter-owned connection facility other than an enabler facility, and where that capital contribution includes the cost of capacity on the connection

facility in excess of the customer's needs, the transmitter shall provide a refund, calculated in accordance with section 6.3.17A, to the customer as follows:

- a) where the customer made the capital contribution before August 26, 2013, the refund shall be provided if that excess capacity is assigned to another customer within five years of the date on which the connection facility or modification to the connection facility comes into service; or
- b) where the customer makes the capital contribution on or after August 26, 2013, the refund shall be provided if that excess capacity is assigned to another customer within fifteen years after the date on which the connection facility or modification to the connection facility comes into service.

Where such a refund is required, the transmitter shall require a financial contribution from the subsequent customer to cover the amount of that refund.

6. The Transmission System Code is amended by adding new section 6.3.17A immediately after section 6.3.17 as follows:

6.3.17A For the purposes of section 6.3.17, the transmitter shall determine the amount of the refund to the initial customer and of the financial contribution from the subsequent customer by calculating a revised capital contribution amount using the prescribed economic evaluation methodology set out in section 6.5 and the same inputs as used in the original economic evaluation except for load, which will be based on the actual load of the initial customer up to the time of connection of the subsequent customer and a revised load forecast for the remainder of the economic evaluation period. The revised load forecast will include an updated load forecast of the initial customer plus the load forecast of the subsequent customer. The transmitter will then use the methodology set out in section 6.3.14, 6.3.15 or 6.3.16 to allocate the revised capital contribution amount to the initial and subsequent customers. The refund to the initial customer shall be determined by subtracting the initial customer's allocated share of the revised capital contribution amount from the original capital contribution amount paid by the initial customer.

7. Section 6.7.8 of the Transmission System Code is amended by replacing the phrase "section 6.2.24, 6.3.9 or 6.3.17" with the phrase "section 6.3.9 or 6.3.17A", such that the section reads as follows:

6.7.8 Where an economic evaluation, including an economic evaluation referred to in section 6.3.9 or 6.3.17A, was conducted by a transmitter for a load customer in relation to a connection facility on the basis of a load forecast, a transmitter shall not, during the economic evaluation period to which the economic evaluation relates, require bypass compensation from a customer under section 6.7.6 in relation to any load that represents that customer's contracted capacity.

8. Section 6.9.1 of the Transmission System Code is amended by replacing the phrase "sections 6.2.24, 6.3.9 and 6.3.17" with the phrase "sections 6.3.9 and 6.3.17A", such that the section reads as follows:

6.9.1 A transmitter shall maintain complete and accurate records of all economic evaluations required to be carried out under this Code, including the economic evaluations referred to in sections 6.3.9 and 6.3.17A. Each record must show the details of the economic evaluation, including the determination of the risk classification and the resulting economic evaluation period, the load forecast, the project capital costs, the ongoing operation and maintenance costs, and the project after tax incremental cost of capital, and must include the justification for all of the study parameters.

2. *The Transmission Asset Definition Issue*

1. Section 2.0.13 of the Transmission System Code is amended by adding the phrase "but excludes any line referred to in section 3.0.14(a) and any station referred to in section 3.0.14(b)" to the end of that section, such that the section reads as follows:

2.0.13 "connection facilities" means line connection facilities and transformation connection facilities that connect a transmitter's transmission system with the facilities of another person, and includes an enabler facility but excludes any line referred to in section 3.0.14(a) and any station referred to in section 3.0.14(b);

2. Section 2.0.45 of the Transmission System Code is amended by adding the phrase "and has the extended meaning given to it in section 3.0.14" to the end of that section, such that the section reads as follows:

2.0.45 "network facilities" means those facilities, other than connection facilities, that form part of a transmission system that are shared by all users, comprised of network stations and the transmission lines connecting them, and has the extended meaning given to it in section 3.0.14;

3. Section 2 of the Transmission System Code is amended by adding new section 2.0.45A immediately after section 2.0.45 as follows:

2.0.45A "network station" means:

- (a) any station with one or more of the following:
 - i. a 500 kV element, including a 500/230 kV or a 500/115 kV autotransformer;
 - ii. a 230 kV or 115 kV element that switches lines that normally operate in parallel with lines that connect transmission stations containing 500 kV elements;
 - iii. a 345 kV, 230 kV or 115 kV element that switches a 345 kV, 230 kV or 115 kV line that connects with the transmission system of a neighbouring Ontario transmitter or with a transmission system outside Ontario, including a 345/230 kV autotransformer; or
 - iv. a 345 kV, 230 kV or 115 kV element that switches a 345 kV, 230 kV or 115 kV line that connects interconnection circuits to any network station referred to in any of (i) to (iii) above; and
 - (b) any station that the Board has determined should be treated as a network facility in or through a Decision, Order or Decision and Order issued before August 26, 2013, and has the extended meaning given to it in section 3.0.14;
4. Section 3 of the Transmission System Code is amended by adding new sections 3.0.14 and 3.0.15 immediately after section 3.0.13 as follows:

3.0.14 Subject to section 3.0.15:

- (a) a “network facility” includes any line that forms part of the physical path between:
 - i. two network stations; or
 - ii. a network station and the transmission system of a neighbouring Ontario transmitter or a transmission system outside Ontario,

such that electricity can be transmitted along the entire path under some operating conditions, which may or may not reflect normal operating conditions; and

- (b) a “network station” includes any station with one or more of the following:
 - i. an element that is greater than 500 kV;
 - ii. an autotransformer that steps down voltage from a higher transmission level to a lower transmission level;
 - iii. a transmission switchyard to which all of the following are connected:
 - (A) one or more generation facilities with a minimum aggregate installed rated capacity of 250 MW;
 - (B) one or more load facilities with a minimum aggregate load of 150 MW; and
 - (C) a minimum of four transmission circuits.

3.0.15 Section 3.0.14 only applies where the line referred to in section 3.0.14(a) or the station referred to in section 3.0.14(b):

- (a) commences to be constructed on or after August 26, 2013; or
- (b) is expanded or reinforced for the purposes of increasing its capacity, and the expansion or reinforcement (or the expanded or reinforced line or station) commences to be constructed on or after August 26, 2013, regardless of when the line or station was originally placed into service.

MUNICIPAL ACT, 2001

SALE OF LAND BY PUBLIC TENDER

**THE CORPORATION OF
THE TOWNSHIP OF WHITEWATER REGION**

TAKE NOTICE that tenders are invited for the purchase of the land described below and will be received until 3:00 p.m. local time on the 3rd day of October, 2013 at the Municipal Office, 44 Main Street, Cobden ON K0J 1K0. Tenders will then be opened in public on the same day immediately following the 3:00pm deadline at 44 Main Street, Cobden.

Description of Land(s):

Pt Lot 1, Con 2 West Muskrat Lake, Westmeath, as in R265980; T/W R265980; S/T Debts in R265980; Westmeath Now in Township of Whitewater Region
145 Crystal Trail (0.30 Acres)
PIN#57617-0054 (LT)
Roll No. 47 58 058 025 09000 0000

Minimum Tender Amount:

\$12,873.90

Tenders must be submitted in the prescribed form and must be accompanied by a deposit in the form of a money order or of a bank draft or cheque certified by a bank or trust corporation payable to the municipality and representing at least 20 per cent of the tender amount.

Except as follows, the municipality makes no representation regarding the title to or any other matters relating to the land to be sold. Responsibility for ascertaining these matters rests with the potential purchasers.

This sale is governed by the *Municipal Act, 2001* and the Municipal Tax Sales Rules made under that Act. The successful purchaser will be required to pay the amount tendered plus accumulated taxes and the relevant land transfer tax.

The municipality has no obligation to provide vacant possession to the successful purchaser.

Note: H.S.T. may be payable by successful purchaser.

Tenders must be submitted in the prescribed form and must be accompanied by a deposit in the form of a money order or of a bank draft or cheque certified by a bank or trust corporation payable to the municipality and representing at least 20 per cent of the tender amount.

All tenders must be in a sealed envelope with TAX SALE and a short description of the property on the outside of the envelope and should be addressed to the name and address below.

The Municipality makes no representation regarding the title to or any other matters relating to the land to be sold. Responsibility for ascertaining these matters rests with the potential purchasers.

This sale is governed by the *Municipal Act, 2001* and the Municipal Tax Sales Rules made under that Act. The successful purchaser will be required to pay the amount tendered plus accumulated taxes and interest and the relevant land transfer tax and HST, if applicable.

The municipality **has no obligation to provide vacant possession** to the successful purchaser.

For further information regarding this sale and a copy of the prescribed form of tender, contact:

ONTARIO REGULATION 237/13

made under the

AUTOMOBILE INSURANCE RATE STABILIZATION ACT, 2003

Made: August 15, 2013

Filed: August 23, 2013

Published on e-Laws: August 23, 2013

Printed in *The Ontario Gazette*: September 7, 2013

INDUSTRY-WIDE RATE REDUCTION TARGET

Application of regulation

1. This Regulation applies with respect to the industry-wide target established under section 2.1 of the Act for the reduction of rates that insurers are permitted to charge for the Personal Vehicles — Private Passenger Automobile category of automobile insurance in Ontario.

Period for achieving 15 per cent reduction target

2. The 15 per cent reduction target required under the Act must be achieved during the period that begins on August 16, 2013 and ends on August 15, 2015.

Periodic reduction toward target

3. The following periodic reduction toward the target must be achieved:

1. 8 per cent no later than August 15, 2014.

Determination of average of the authorized rates

4. For the purpose of subsection 2.1 (2) of the Act, the average, on a particular date, of the authorized rates that may be charged by all insurers for the Personal Vehicles — Private Passenger Automobile category of automobile insurance in Ontario is determined as follows:

1. For each insurer, determine the average authorized rate that may be charged by the insurer, on the particular date, for all coverages for the Personal Vehicles — Private Passenger Automobile category of automobile insurance in Ontario as follows:
 - i. Determine the average authorized rate on that date for each coverage for a 12-month policy term in premium dollars per insured vehicle.
 - ii. For each coverage, multiply the amount determined under subparagraph i by the fraction A/B, in which,
 - “A” is the total number of vehicles insured by the insurer that had that coverage in the most recent completed calendar year, and
 - “B” is the total number of vehicles insured by the insurer in the most recent completed calendar year.
 - iii. Add the amounts determined under subparagraph ii.
2. For each insurer, multiply the amount determined under paragraph 1 by the fraction C/D, in which,
 - “C” is the number of vehicles insured by the insurer in the Personal Vehicles — Private Passenger Automobile category of automobile insurance in Ontario in the most recent completed calendar year for which that information has been compiled and provided to the Superintendent by the agency designated under subsection 101 (1) of the *Insurance Act*, and
 - “D” is the total number of vehicles insured by all insurers in the Personal Vehicles — Private Passenger Automobile category of automobile insurance in Ontario in the most recent completed calendar year for which that information has been compiled and provided to the Superintendent by the agency designated under subsection 101 (1) of the *Insurance Act*.

3. Add all of the amounts determined under paragraph 2.

Commencement

5. This Regulation comes into force on the later of the day section 3 of Schedule 1 to the *Prosperous and Fair Ontario Act (Budget Measures), 2013* comes into force and the day this Regulation is filed.

RÈGLEMENT DE L'ONTARIO 237/13

pris en vertu de la

LOI DE 2003 SUR LA STABILISATION DES TAUX D'ASSURANCE-AUTOMOBILE

pris le 15 août 2013
déposé le 23 août 2013
publié sur le site Lois-en-ligne le 23 août 2013
imprimé dans la *Gazette de l'Ontario* le 7 septembre 2013

OBJECTIF SECTORIEL GLOBAL DE RÉDUCTION DES TAUX**Champ d'application du présent règlement**

1. Le présent règlement s'applique à l'égard de l'objectif sectoriel global fixé à l'article 2.1 de la Loi en ce qui concerne la réduction des taux que les assureurs sont autorisés à demander en Ontario pour la catégorie d'assurance-automobile Véhicules personnels — Voitures de tourisme.

Période de réalisation de l'objectif de réduction de 15 %

2. L'objectif de réduction de 15 % exigé par la Loi doit être réalisé au cours de la période qui commence le 16 août 2013 et se termine le 15 août 2015.

Réduction périodique en vue de réaliser l'objectif

3. La réduction périodique exigée en vue de réaliser l'objectif est la suivante :

1. 8 % au plus tard le 15 août 2014.

Calcul de la moyenne des taux autorisés

4. Pour l'application du paragraphe 2.1 (2) de la Loi, la moyenne, à une date donnée, des taux autorisés que peuvent demander tous les assureurs en Ontario pour la catégorie d'assurance-automobile Véhicules personnels — Voitures de tourisme se calcule comme suit :

1. Pour chaque assureur, calculer le taux autorisé moyen qu'il peut demander en Ontario, à la date donnée, pour toutes les couvertures de la catégorie d'assurance-automobile Véhicules personnels — Voitures de tourisme de la manière suivante :
 - i. Calculer le taux autorisé moyen à cette date pour chaque couverture prévue par une police d'une durée de 12 mois, en dollars de prime par véhicule assuré.
 - ii. Pour chaque couverture, multiplier le montant calculé en application de la sous-disposition i par la fraction A/B, où :
 - «A» représente le nombre total de véhicules assurés par l'assureur qui bénéficiaient de cette couverture au cours de la dernière année civile révolue,
 - «B» représente le nombre total de véhicules assurés par l'assureur au cours de la dernière année civile révolue.
 - iii. Additionner les montants calculés en application de la sous-disposition ii.
2. Pour chaque assureur, multiplier le montant calculé en application de la disposition 1 par la fraction C/D, où :
 - «C» représente le nombre de véhicules assurés par l'assureur en Ontario dans la catégorie d'assurance-automobile Véhicules personnels — Voitures de tourisme au cours de la dernière année civile révolue pour laquelle ces renseignements ont été compilés et fournis au surintendant par le bureau désigné pour l'application du paragraphe 101 (1) de la *Loi sur les assurances*,
 - «D» représente le nombre total de véhicules assurés par tous les assureurs en Ontario dans la catégorie d'assurance-automobile Véhicules personnels — Voitures de tourisme au cours de la dernière année civile révolue pour laquelle ces renseignements ont été compilés et fournis au surintendant par le bureau désigné pour l'application du paragraphe 101 (1) de la *Loi sur les assurances*.
3. Additionner tous les montants calculés en application de la disposition 2.

Entrée en vigueur

5. Le présent règlement entre en vigueur le dernier en date du jour de l'entrée en vigueur de l'article 3 de l'annexe 1 de la *Loi de 2013 pour un Ontario prospère et équitable (mesures budgétaires)* et du jour du dépôt du présent règlement.
