(3) The credit described in subsection (2) shall be reduced, in the case of a person who receives assistance under the Ontario Electricity Support Program in the billing period, by 8 per cent of the amount received in assistance under that program in the billing period.

(4) Every unit sub-meter provider shall maintain an account that records the difference between the amount calculated under subsection (2) without reference to subsection (3), and the amount payable after subsection (3) is taken into account.

(4) If an invoice period is not wholly within the eligible period, the amount of fees and charges for the portion of the invoice period that is in the eligible period is determined by multiplying the amount of the fees and charges for the invoice period by the ratio of the number of days in the invoice period that are in the eligible period to the total number of days in the invoice period.

PART II

REMOTE UNLICENSED DISTRIBUTORS

Remote unlicensed distributors

16. (1) A remote unlicensed distributor is a person, corporation or organization that,

- (a) distributes electricity in a remote community listed in the Schedule;
- (b) issues invoices for electricity distributed to electricity customers who are eligible to receive financial assistance under the Act; and
- (c) is willing to provide financial assistance to those customers as an agent of the Minister.

(2) Every remote unlicensed distributor meeting the requirements set out in section 17 is prescribed as an electricity vendor for the purposes of the Act.

(3) Sections 2 and 6 do not apply to remote unlicensed distributors or to consumers who have eligible accounts with them.

(4) Despite section 21, no amount is payable as a reimbursement to a remote unlicensed distributor who fails without reasonable cause to provide any information required by the Minister within the time it is required to be provided.

Enrolment of remote unlicensed distributors

17. (1) Subject to subsection (4), in order to be prescribed under section 16, a remote unlicensed distributor must first,

- (a) submit a completed form entitled "Enrolment Application", available from the Ministry, to the contact person at the Ministry listed on the form; and

(b) enter into an agreement in the form required by the Ministry.

(2) The distributor must submit with the Enrolment Application,

- (a) information on the distributor's electricity pricing structure;

(b) information on the distributor's consumer rate classes, if any, including the number of customers within each consumer rate class; and

- (c) a sample of an invoice it intends to issue to its electricity customers that shows the amount of financial assistance the customer is entitled to with respect to the time period specified on the application.

(3) The Ministry may request, at any time and from time to time, and the distributor shall provide any additional information or documents the Ministry requires in order to confirm that the distributor is a remote unlicensed distributor during the eligible period and to determine if there are consumers who have eligible accounts with the distributor during the eligible period.

(4) The requirements of clause (1) (a) do not apply to a remote unlicensed distributor distributing electricity to any of the following remote communities:

1. North Spirit Lake.
2. Winisk Indian Settlement.
3. Summer Beaver Settlement.
4. Muskrat Dam Lake.

Who is eligible to receive financial assistance from a remote unlicensed distributor

18. (1) A person is eligible to receive financial assistance from a remote unlicensed distributor who meets the requirements set out in section 16 if the person is a consumer in a remote community listed in the Schedule who has an eligible account with the remote unlicensed distributor based on at least one of the following conditions set out in the definition of “eligible account” in subsection 1 (1) of the Act:

1. The consumer has a demand for electricity of 50 kilowatts or less.
2. The consumer annually uses not more than 250,000 kilowatt hours of electricity.
3. The consumer,
 - i. carries on a business that is a farming business for the purposes of the *Farm Registration and Farm Organizations Funding Act, 1993*, and
 - ii. holds a valid registration number assigned under that Act or the consumer’s obligation to file a farming business registration form was waived pursuant to an order made under subsection 22 (6) of that Act.
4. The account relates to,
 - i. a dwelling,
 - ii. a property, within the meaning of the *Condominium Act, 1998*,
 - iii. a residential complex, within the meaning of subsection 2 (1) of the *Residential Tenancies Act, 2006*, without regard to section 5 of that Act,
 - iv. a property that includes one or more housing units and that is owned or leased by a co-operative within the meaning of the *Co-operative Corporations Act*.

(2) A person who is eligible to receive financial assistance under this Part is entitled to receive it in respect of electricity consumed in the period before the first invoice in which financial assistance is shown, as long as the electricity was consumed no more than 24 months before the issuance of the invoice and no earlier than January 1, 2017.

Calculating the financial assistance: base invoice amount

19. (1) The purpose of this section is to determine the amount of a consumer’s base invoice amount for a billing period for which an invoice for electricity is issued. A consumer’s financial assistance for a billing period is 8 per cent of the base invoice amount for the billing period or, if the billing period is partly outside the eligible period, for that portion of the billing period that is within the eligible period.

(2) The base invoice amount for a billing period includes the cost of the electricity billed to the consumer for the billing period, including the variable and fixed charges relating to the production and delivery of the electricity, but only for electricity consumed in the eligible period.

(3) The base invoice amount for a billing period for a consumer must exclude,

- (a) any unpaid amounts that have already been billed for a previous billing period;
- (b) all penalties, interest and any other charges not relating to the production and delivery of electricity to the consumer during the billing period;
- (c) any charges relating to electricity supplied to the consumer before the eligible period; and
- (d) the amount of any harmonized sales tax (HST) payable under Part IX of the *Excise Tax Act* (Canada).

(4) If an invoice issued to a consumer for a billing period includes any charges for electricity consumed before the eligible period, the remote unlicensed distributor may make a reasonable estimate of the portion of the electricity consumed during the eligible period and the electricity charges relating to that electricity in order to determine the base invoice amount for that billing period.

How the distributor provides the financial assistance to a consumer

20. If a consumer's eligible account for electricity with a remote unlicensed distributor is closed before the consumer receives all or part of his or her financial assistance from the distributor, the following rules apply:

1. The distributor may apply the amount of the financial assistance the consumer is entitled to receive but has not yet received to any outstanding balance owing by the consumer to the distributor.
2. If the amount then remaining that the consumer is entitled to receive but has not yet received is at least \$10, the distributor must mail or deliver by hand that unpaid amount to the consumer's most recent address known to the distributor.
3. If a cheque mailed or delivered by hand in accordance with paragraph 2 has not been cashed despite the best efforts of the distributor to deliver it, and the cheque has ceased to be negotiable through the passage of time, the distributor is no longer liable to pay the benefits to the consumer and must ensure that the amount is repaid or credited to the Minister of Finance.
4. The distributor shall pay or credit to the Minister of Finance all amounts of less than \$10 that are not paid by the distributor and all amounts referred to in paragraph 3,
 - i. by reporting the total amount in the next Energy Report form, required under section 21, as a deduction from the amount of any reimbursement payable to the distributor, or
 - ii. by remitting the total amount to the Ministry of Energy (but payable to the Minister of Finance).

Reimbursement of benefits provided to consumers

21. (1) To receive a reimbursement for financial assistance provided to its consumers, a remote unlicensed distributor must complete a form entitled "Energy Report", available from the Ministry, for each billing period for which the distributor provided financial assistance to a consumer, and must submit it to the Ministry in accordance with the directions on the form.

(2) The Ministry may at any time request, and the distributor shall provide, within the time specified in the request, any additional information or documents the Ministry considers necessary to determine the amount of the reimbursement to be made to the distributor. No reimbursement for a billing period may be made until the Ministry has received the Energy Report for the billing period and any additional information or documents it has requested to verify the amount to be reimbursed.

(3) Based on the information provided in an Energy Report and any additional information and documents provided by the distributor, the Minister shall reimburse the distributor for the amount of financial assistance provided to consumers. The reimbursement shall be made in the manner set out in the Enrolment Application submitted by the distributor or in another manner established by the Ministry.

(4) The amount of a reimbursement may be subsequently adjusted by way of a reduction or increase in the amount of a subsequent reimbursement if it is subsequently determined by an inspector under section 9 of the Act or by the Ministry that the amount of the reimbursement was inaccurate.

(5) The limitation period for a claim for reimbursement described in this section is 12 months from the earliest date when the remote unlicensed distributor could have submitted a claim for reimbursement of a rebate amount that they provided.

(2) If an electricity vendor or unit sub-meter provider receives a notice from the Minister under subsection (1), it shall use on its invoices the wording specified in the Minister’s notice and shall follow the invoicing process specified in the Minister’s notice instead of the wording or invoicing process otherwise required under this Regulation.

2. The words "8% Provincial Rebate" must appear in a reasonably prominent location on the face of the bill insert.
3. The insert must contain the following wording:

On January 1, 2017, your electricity costs went down 8%.

Ontario's government is reducing electricity costs by rebating an amount equal to the provincial portion of the HST on your monthly hydro bill. That's an 8% rebate for Ontario families, and on average will mean \$130 more in your pocket each year.

This is part of Ontario's plan to help people with the costs of everyday living by reducing electricity costs. Across Ontario, about five million residential consumers, farms and small businesses will benefit from this rebate.

[Insert Electricity vendor or unit sub-meter provider name] will implement these savings onto your bill by July 1, 2017. Applicable savings will be retroactive to January 1, 2017.
