Ontario Highway Transport Board Commission des transports routiers de l'Ontario

Periodically, temporary applications are filed with the Board. Details of these applications can be made available at anytime to any interested parties by calling (416) 326-6732.

The following are applications for extra-provincial and public vehicle operating licenses filed under the *Motor Vehicle Transport Act, 1987*, and the *Public Vehicles Act*. All information pertaining to the applicant i.e. business plan, supporting evidence, etc. is on file at the Board and is available upon request.

Any interested person who has an economic interest in the outcome of these applications may serve and file an objection within 29 days of this publication. The objector shall:

1. complete a Notice of Objection Form,
2. serve the applicant with the objection,
3. file a copy of the objection and provide proof of service of the objection on the applicant with the Board,
4. pay the appropriate fee.

Serving and filing an objection may be by hand delivery, mail, courier or facsimile. Serving means the date received by a party and filing means the date received by the Board.

LES LIBELLÉS DES DEMANDES PUBLIÉES CI-DESSOUS SONT AUSSI DISPONIBLES EN FRANÇAIS SUR DEMANDE.

Pour obtenir de l'information en français, veuillez communiquer avec la Commission des transports routiers au 416-326-6732.

2362953 Ontario Inc.

47722

440 Kingston Road, Pickering, ON L1V 1A4

Applies for an extra-provincial licence as follows:

- A. For the transportation of passengers on a chartered trip from points in the Cities of Toronto and Ottawa, and the Regional Municipalities of Peel, York, Durham to the Ontario/Quebec and Ontario/ U.S.A. border crossings for furtherance:
 1. to points as authorized by the relevant jurisdiction, and for the return of the same passengers on the same chartered trip to point of origin.
PROVIDED THAT there shall be no pick-up or discharge of passengers except at point of origin.
 2. on a one-way chartered trip to points as authorized by the relevant jurisdiction.
- B. From points in the Province of Quebec as authorized by the Province of Quebec from the Ontario/Québec border crossings:
 1. to points in Ontario and for the return of the same passengers on the same chartered trip to point of origin.
PROVIDED THAT there shall be no pick-up or drop-off of passengers except at point of origin.
 2. to points in Ontario on a one-way chartered trip without pick-up of passengers in Ontario.

47722-A

Applies for a public vehicle operating licence as follows:

For the transportation of passengers on a chartered trip from points in the Cities of Toronto and Ottawa, and the Regional Municipalities of Peel, York, and Durham.

FELIX D'MELLO
Board Secretary
Secrétaire de la Commission

Government Notices Respecting Corporations Avis du gouvernement relatifs aux compagnies

Notice of Default in Complying with the Corporations Tax Act Avis de non-observation de la Loi sur l'imposition des sociétés

The Director has been notified by the Minister of Finance that the following corporations are in default in complying with the *Corporations Tax Act*.

NOTICE IS HEREBY GIVEN under subsection 241(1) of the *Business Corporations Act*, that unless the corporations listed hereunder comply with the requirements of the *Corporations Tax Act* within 90 days of this notice, orders will be made dissolving the defaulting corporations. All enquiries concerning this notice are to be directed to Ministry of Finance, Corporations Tax, 33 King Street West, Oshawa, Ontario L1H 8H6.

Le ministre des Finances a informé le directeur que les sociétés suivantes n'avaient pas respecté la *Loi sur l'imposition des sociétés*.

AVIS EST DONNÉ PAR LA PRÉSENTE que, conformément au paragraphe 241(1) de la *Loi sur les sociétés par actions*, si les sociétés citées ci-dessous ne se conforment pas aux prescriptions énoncées par la *Loi sur l'imposition des sociétés* dans un délai de 90 jours suivant la réception du présent avis, lesdites sociétés se verront dissoutes par décision. Pour tout renseignement relatif au présent avis, veuillez vous adresser à l'Imposition des sociétés, ministère des Finances, 33, rue King ouest, Oshawa ON L1H 8H6.

municipally known as **30 GLOUCESTER ST., UNIT 1710, TORONTO, ONTARIO.**

All of which said right, title, interest and equity of redemption of **MARINA SELIVERSTOVA**, Debtor(s), in the said lands and tenements described above, I shall offer for sale by Public Auction subject to the conditions set out below at:

393 UNIVERSITY AVENUE, 19TH FLOOR, TORONTO, ONTARIO, 416-327-5685 on THURSDAY, MARCH 9, 2017, at 11:00 a.m. (Registration from 9:30 a.m. – 10:30 a.m.)

THE SALE OF THE AFOREMENTIONED PROPERTY IS SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS: **The property is a cooperative and ownership may be subject to the authority of the cooperative.** The purchaser to assume responsibility for all mortgages, charges, liens, outstanding taxes, and other encumbrances. No representation is made regarding the title of the land or any other matter relating to the interest to be sold. Vacant possession is not included in the sale of this property. Responsibility for ascertaining these matters rests with the potential purchaser(s).

TERMS:

- A deposit of 10% of bid price or \$1,000.00, whichever is greater.
- Payable at time of sale by successful bidder;
- To be applied to purchase price; and
- Non-refundable – Failure of the successful bidder to comply with these terms and conditions may result in a forfeit of any deposits paid at the time of the sale or any time thereafter.

Ten business days from date of sale to arrange financing and pay balance in full at **393 UNIVERSITY AVENUE, 19TH FLOOR, TORONTO, ONTARIO.**

All payments to be provided in cash or by bank draft, certified cheque or money order made payable to the Minister of Finance.

A Deed Poll will be provided by the Sheriff only upon satisfactory payment in full of purchase price.

Other conditions as announced.

THIS SALE IS SUBJECT TO CANCELLATION BY THE SHERIFF WITHOUT FURTHER NOTICE UP TO THE TIME OF THE SATISFACTION OF THE SALE TERMS BY A SUCCESSFUL BIDDER.

Note: No employee of the Ministry of the Attorney General may purchase any goods or chattels, lands or tenements exposed for sale by a Sheriff under legal process, directly or indirectly.

EN VERTU D'UN MANDAT D'EXÉCUTION déposé auprès du shérif de la **VILLE DE TORONTO** daté du **21 DECEMBRE 2015**, portant le numéro de mandat **15-7728**, les biens réels et personnels de **MARINA SELIVERSTOVA**, débiteur, à la demande de **FELICIA VACARU, FELICIA PURCARU**, créancier(s), j'ai saisi et exécuté le droit, le titre, l'intérêt et la valeur de rachat de **MARINA SELIVERSTOVA**, débiteur(s), à l'égard de LA TOTALITÉ ET CHACUNE DES PARTIES d'une certaine parcelle ou bande de terrain et bâtiments composés de :

NDI activé le 04 NOV 2016, T. BROWN en l'affaire ADRIANA HORNSTEIN. La Parcelle 4-3, section AD35; lot 6 sur le plan 81, TORONTO; lot 7 sur le plan 81, TORONTO; lot 8 sur le plan 81, TORONTO; partie du lot 9 sur le plan 81, TORONTO; partie du lot 4 sur le plan D35, TORONTO; partie du lot 5 sur le plan D35, TORONTO; partie du lot 6 sur le plan D35, TORONTO; partie du lot 7 sur le plan D35, TORONTO; partie du lot 8 sur le plan D35, TORONTO; partie du lot 9 sur le plan D35, TORONTO, les parties 1, 2 et 3 sur le plan R4664; avec une servitude grevant ladite partie 2 sur le plan R4664 en faveur des propriétaires de la partie du lot 10 sur ledit plan 81 immédiatement adjacente à la limite orientale de ladite partie 2 sur le plan R4664 et ayant 54 pieds et 7 pouces de façade sur la limite septentrionale de la rue GLOUCESTER, décrite dans les actes 83947P et 84370P. VOIR les actes A289916 et A289917 respectivement. Avec une emprise en faveur de SALFORD INVESTMENTS LIMITED, pour l'usage commun des personnes qui y ont légalement droit, sur la partie dudit lot 8 sur le plan 81 et à la partie dudit lot 8 sur le plan D35, désignées comme étant les parties 1, 2 et 3 sur le plan 66R7063, dépendant de biens-fonds non enregistrés comme le prévoit la *Loi sur l'enregistrement des droits immobiliers*, à savoir : le lot 10 et les parties des lots 4, 5, 6, 7, 8, 9 et 11 sur le plan D35 (VILLE DE TORONTO), enregistrés au bureau d'enregistrement immobilier de la division d'enregistrement de TORONTO (no 63), et partie du lot 9 sur le plan 81 (VILLE DE TORONTO), enregistrée dans ledit bureau d'enregistrement immobilier et décrite comme suit : PARTANT DU PRINCIPE QUE la limite septentrionale de la rue GLOUCESTER a un azimut nord de 74 degrés est et que tous les relevements figurant aux présentes s'y rapportent. COMMENÇANT à l'angle nord-ouest dudit lot 4, étant un point à l'intérieur de la limite méridionale de la rue ISABELLA, situé à 287 pieds et 1 pouce, plus ou moins, mesuré en direction est à partir de la limite orientale de la rue YONGE. De là, en direction nord 74 degrés, 19 minutes, 30 secondes est le long de ladite limite méridionale de la rue ISABELLA, sur une distance de 289 pieds et 3 pouces 3/4 jusqu'à un point situé à une distance de 32 pieds et 5 pouces 3/4 mesurée en direction ouest à partir de la limite orientale dudit lot 11, le dernier point mentionné étant également situé à une distance de 361 pieds et 5 pouces 1/4 mesurée en direction ouest à partir de la limite occidentale de la rue CHURCH. De là, en direction sud 16 degrés, 7 minutes est sur une distance de 172 pieds et 2 pouces jusqu'à un point à l'intérieur de la limite méridionale dudit lot 11, situé à une distance de 33 pieds et 10 pouces mesurée en direction ouest à partir de la limite orientale de ce lot. De là, en direction sud 74 degrés, 31 minutes, 30 secondes ouest le long de ladite limite méridionale du lot 11, cette limite étant également la limite septentrionale du lot 10 sur ledit plan 81. Sur une distance de 7 pieds et 3 pouces 1/2 jusqu'à l'angle nord-est du lot 9 sur ledit plan 81. De là, en direction sud 15 degrés, 43 minutes, 20 secondes est le long de la limite orientale du lot 9 sur ledit plan 81, sur une distance de 116 pieds et 10 pouces, plus ou moins, jusqu'à un point situé à une distance de 23 pieds mesurée en direction nord à partir de ladite limite septentrionale de la rue GLOUCESTER. De là, en direction sud 74 degrés ouest sur une ligne parallèle à ladite limite septentrionale de la rue GLOUCESTER, sur une distance de 41 pieds et 8 pouces. De là, en direction nord 16 degrés ouest sur une distance de 69 pieds. De là, en direction sud 74 degrés ouest sur une ligne parallèle à ladite limite septentrionale de la rue GLOUCESTER, sur une distance de 19 pieds et 9 pouces 1/4. De là, en direction nord 16 degrés ouest sur une distance de 64 pieds. De là, en direction sud 74 degrés ouest sur une ligne parallèle à ladite limite septentrionale de la rue GLOUCESTER, sur une distance de 220 pieds et 3 pouces, plus ou moins, jusqu'à un point d'intersection avec la limite occidentale dudit lot 4 sur le plan D35. De là, en direction nord 16 degrés, 2 minutes ouest le long de cette dernière limite occidentale, sur une distance de 157 pieds et 6 pouces 1/2, plus ou moins, jusqu'au dit point de départ, comme il est établi dans l'acte A413904. LE CONSENTEMENT DONNÉ PAR LE COMITÉ DE DÉROGATION LE 73/10/23 EST CONTRESIGNÉ; AUCUN ENREGISTREMENT N'A ÉTÉ FAIT À L'ÉGARD DE CE NIP. VOIR Ken Crawford, 2002/03/27. VILLE DE TORONTO, à l'adresse municipale suivante :

30, RUE GLOUCESTER, UNITÉ 1710, TORONTO, ONTARIO

Je procéderai à la vente desdits droit, titre, intérêt et valeur de rachat de **MARINA SELIVERSTOVA**, débiteur(s), à l'égard desdits biens-fonds et immeubles décrits ci-dessus, dans le cadre d'une vente aux enchères assujettie aux conditions énoncées ci-dessous, **393, avenue UNIVERSITY, 19e étage, TORONTO, ONTARIO 416-327-5685 le jeudi 9 mars 2017, à 11 h.**

(Inscription à partir de 9 h 30 – 10 h 30)

LA VENTE DES BIENS SUSMENTIONNÉS EST ASSUJETTIE AUX CONDITIONS SUIVANTES : **Ces biens-fonds étant une coopérative, leur possession peut être assujettie au pouvoir de la coopérative.** L'acheteur assumera la responsabilité de l'ensemble des hypothèques, charges, privilèges, impôts impayés et autres gages grevant le bien-fonds. Aucune déclaration n'est faite concernant le titre du bien-fonds ou toute autre question relative à l'intérêt qui sera vendu. La libre possession n'est pas incluse dans la vente du bien-fonds. Il est de la responsabilité de l'acheteur potentiel de déterminer ces questions.

CONDITIONS :

- Une avance de 10 % du prix demandé ou 1 000 \$, selon le montant le plus élevé,
- est exigible au moment de la vente par le soumissionnaire gagnant;
- à déduire du prix d'achat;
- non remboursable. Le non-respect de ces conditions par le soumissionnaire gagnant risque de conduire à la saisie de toute avance versée au moment de la vente ou par la suite.

Dix jours ouvrables après la date de vente sont prévus pour établir le financement et verser le solde intégral à/au **393, avenue UNIVERSITY, 19e étage, TORONTO, ONTARIO.**

Tous les paiements doivent être effectués en espèces ou par traite bancaire, chèque certifié ou mandat à l'ordre du ministre des Finances.

Un acte unilatéral sera remis par le shérif après le paiement satisfaisant du prix d'achat total.

Toute autre condition annoncée.

LA VENTE PEUT ÊTRE ANNULÉE PAR LE SHÉRIF SANS AUTRE PRÉAVIS TANT QUE LE SHÉRIF N'EST PAS SATISFAIT DU RESPECT DES CONDITIONS DE VENTE PAR LE SOUMISSIONNAIRE GAGNANT.

Nota : nul employé du ministère du Procureur général ne peut acheter des biens ou biens meubles, terres ou immeubles mis en vente par un shérif dans le cadre d'une procédure juridique, directement ou indirectement.

Date : 28 DÉCEMBRE 2016

Sheriff of the Regional Municipality of Halton
905-878-7285 x 3424

(150-P012E)

EN VERTU D'UN BREF D'EXÉCUTION FORCÉE déposé auprès du shérif de la municipalité régionale de Halton, les biens réels et personnels de MOHAMED ABU-OMAR, connu également sous les noms de MOHAMED ABUOMAR et MOHAMED A.R. ABUOMAR, débiteur, à la demande de XUAN LUU, créancier, j'ai procédé à la saisie et à l'exécution forcée de tout droit, titre, intérêt et droit de rachat que détient MOHAMED ABU-OMAR, connu également sous les noms de MOHAMED ABUOMAR et MOHAMED A.R. ABUOMAR, débiteur, à l'égard de :

LA MOITIÉ DU LOT 18 SUR LE PLAN 20M997, À OAKVILLE, GREVÉ D'UNE SERVITUDE D'ENTRÉE MENTIONNÉE DANS L'ACTE HR629546, à l'adresse municipale suivante : 2434, PROMENADE SYLVIA, OAKVILLE, ONTARIO

Ledit intérêt et tout autre droit, titre, intérêt et droit de rachat que détient MOHAMED ABU-OMAR, connu également sous les noms de MOHAMED ABUOMAR et MOHAMED A.R. ABUOMAR, débiteur, à l'égard des biens-fonds et tenements indiqués ci-dessus ont été mis

en vente aux enchères publiques au palais de justice de Milton, au 491, avenue Steeles Est, Milton, Ontario, L9T 1Y7, le 19 février 2016 à 10 h et la vente publique tenue à ladite date a été un échec.

EN VERTU de la procédure s'appliquant en cas d'échec d'une vente, ledit intérêt et tout autre droit, titre, intérêt et droit de rachat que détient MOHAMED ABU-OMAR, connu également sous les noms de MOHAMED ABUOMAR et MOHAMED A.R. ABUOMAR, débiteur, à l'égard des biens-fonds et tenements indiqués ci-dessus sont à présent mis en vente par SOUMISSION CACHETÉE.

CONDITIONS :

L'acheteur assumera la responsabilité de l'ensemble des hypothèques, charges, privilèges, taxes impayées et autres sûretés. Aucune déclaration n'est faite concernant le titre du bien-fonds ou toute autre question relative à l'intérêt qui sera vendu. Il incombera à l'acheteur/aux acheteurs potentiel(s) de déterminer ces questions.

MODALITÉS :

- Toutes les soumissions cachetées doivent avoir été reçues par le bureau de l'exécution du 491, avenue Steeles Est, Milton, Ontario, L9T 1Y7, au plus tard le 21 février 2017 à 17 h.
- Toute soumission doit être présentée sous pli cacheté indiquant clairement qu'elle concerne le bien en question et être accompagnée d'une avance de 10 % du prix demandé, sous forme de fonds certifiés à l'ordre du ministre des Finances, à déduire du prix d'achat. Les avances versées par les soumissionnaires non gagnants seront retournées. L'avance versée par le soumissionnaire gagnant n'est pas remboursable.
- Les soumissions reçues APRÈS 17 H le 21 FÉVRIER 2017 seront rejetées.
- Le soumissionnaire gagnant sera avisé par téléphone dans les 2 jours ouvrables suivant la clôture de la vente.
- Le soumissionnaire gagnant est tenu de régler le solde intégralement dans les 10 jours ouvrables suivant la date de la vente au :
- BUREAU DE L'EXÉCUTION
- 491, avenue Steeles Est, Milton, Ontario
- Tous les paiements doivent être effectués en espèces ou par chèque certifié à l'ordre du MINISTRE DES FINANCES.
- Un acte unilatéral sera remis par le shérif après le paiement satisfaisant du prix d'achat total.
- Toute autre condition annoncée.

LA VENTE PEUT ÊTRE ANNULÉE PAR LE SHÉRIF SANS AUTRE PRÉAVIS TANT QUE LE SHÉRIF N'EST PAS SATISFAIT DU RESPECT DES MODALITÉS DE VENTE PAR LE SOUMISSIONNAIRE GAGNANT.

NUL EMPLOYÉ DU MINISTÈRE DU PROCUREUR GÉNÉRAL NE PEUT ACHETER DES OBJETS OU CHATELS, DES BIENS-FONDS OU DES TENEMENTS MIS EN VENTE PAR LE SHÉRIF DANS LE CADRE D'UNE PROCÉDURE LÉGALE, DIRECTEMENT OU INDIRECTEMENT.

Date : le 10 janvier 2017

Le shérif de la municipalité régionale de Halton
905-878-7285 poste 3424

(150-P012F)

UNDER AND BY VIRTUE OF a Writ of Execution filed with the Sheriff of the **REGIONAL MUNICIPALITY OF YORK**, dated **SEPTEMBER 4, 2013**, under writ file number **13-3287**, the real and personal property of **COLLEEN ANN RENNIE ESTATE TRUSTEE FOR THE ESTATE OF FRASER MARTIN RENNIE**, Debtor, at the request of **EDITH KOZMA**, Creditor(s), I have seized and taken in execution all of the right, title, interest and equity of redemption of **COLLEEN ANN RENNIE ESTATE TRUSTEE FOR THE ESTATE OF FRASER MARTIN RENNIE**, Debtor(s) in and to:

BARBARA DAWSON
Sheriff's Office, County of Brant
70 Wellington Street, Brantford, ON
N3T 2L9 ENF # 2016-35

(150-P014E)

EN VERTU ET CONFORMITÉ d'un bref de saisie-exécution délivré par la Cour supérieure de justice à Hamilton le 5 juin, 2013 numéro de dossier 07-30712, concernant les biens personnels et réels de Adelchi Di Palma, la partie défenderesse, à la demande de Canada Mortgage and Housing Corporation, la partie demanderesse, j'ai saisi tous les droits, titres, intérêts et droits de rachat en equity de Adelchi Di Palma, défendant, relatifs à :

PT LT 2, BLK N, PL 81, AS IN A47548 EXCEPT PL 1234;
S/T A 3934 DUMFRIES SUD
MUNICIPALEMENT CONNU SOUS LE NOM 103 RUE MAIN SUD,
ST. GEORGE, ONTARIO N0E 1N0

Je dois mettre en vente aux enchères publiques tous lesdits droits, titres, intérêts et droits de rachat en equity de Adelchi Di Palma, la partie défenderesse, desdits terrains et tenements décrits ci-dessus, sous réserve des conditions énoncées ci-après à la Cours supérieure de justice, 70 rue Wellington, Brantford, Ontario N3T 2L9 le mardi, 21 février, 2017 à 11h00.

CONDITIONS :

L'acheteur assume l'entière responsabilité des hypothèques, des charges, des privilèges, des impôts impayés et de toute autre charge. Aucune garantie n'est donnée quant au titre du terrain ou aux motifs de la vente. Il incombe à l'acheteur éventuel de vérifier ces questions.

MODALITÉS :

- Dépôt de 10 % du prix de l'offre ou de 1 000,00 \$, selon le plus élevé des deux montants.
- À payer au moment de la vente par l'acheteur retenu.
- Le dépôt est déductible du prix d'achat.
- Le dépôt n'est pas remboursable.
- L'acheteur dispose de dix jours ouvrables à compter de la date de vente pour obtenir le financement nécessaire et payer le solde en entier à la Cours supérieure de justice, 70 rue Wellington, Brantford, Ontario N3T 2L9.
- Tous les paiements sont effectués en espèces ou par chèque certifié à l'ordre du ministre des Finances.
- Un acte formaliste unilatéral sera fourni à l'acheteur par le shérif seulement lorsque le paiement aura été effectué en entier.
- D'autres modalités pourraient s'ajouter.

CETTE VENTE PEUT ÊTRE ANNULÉE PAR LE SHÉRIF EN TOUT TEMPS ET SANS PRÉAVIS AU COURS DE LA PÉRIODE DE MISE EN VENTE.

Remarque : Aucun employé du ministère du Procureur général ne peut acheter des biens ou des biens meubles, des terrains ou des immeubles offerts en vente par un shérif dans le cadre d'une saisie judiciaire, que ce soit directement ou indirectement.

Sale of Land for Tax Arrears By Public Tender Ventes de terrains par appel d'offres pour arriéré d'impôt

MUNICIPAL ACT, 2001

SALE OF LAND BY PUBLIC TENDER

THE CORPORATION OF THE MUNICIPALITY OF HURON EAST

TAKE NOTICE that tenders are invited for the purchase of the land described below and will be received until 3:00 p.m. local time on February 15, 2017, at the Huron East Municipal Office, 72 Main Street South, Seaforth Ontario.

The tenders will then be opened in public on the same day as soon as possible after 3:00 p.m. at the Huron East Municipal Office, 72 Main Street South, Seaforth.

Description of Land(s):

Roll No. 40 40 160 031 21505 0000; 72 Crescent Dr., Vanastra; Part of PIN 41179-0131 (LT); Lot 2 Plan 133 Tuckersmith; Subject to R124197; Municipality of Huron East; File No. 15-02

Minimum Tender Amount: **\$11,647.34**

Tenders must be submitted in the prescribed form and must be accompanied by a deposit in the form of a money order or of a bank draft or cheque certified by a bank or trust corporation payable to the municipality and representing at least 20 per cent of the tender amount.

Except as follows, the municipality makes no representation regarding the title to or any other matters, including any environmental concerns, relating to the land to be sold. Responsibility for ascertaining these matters rests with the potential purchasers.

This sale is governed by the *Municipal Act, 2001* and the Municipal Tax Sales Rules made under that Act. The successful purchaser will be required to pay the amount tendered plus accumulated taxes, HST if applicable and the relevant land transfer tax.

The municipality has no obligation to provide vacant possession to the successful purchaser.

ONTARIO REGULATION 1/17

made under the

ENVIRONMENTAL PROTECTION ACT

Made: December 14, 2016

Filed: January 3, 2017

Published on e-Laws: January 3, 2017

Printed in *The Ontario Gazette*: January 21, 2017

**REGISTRATIONS UNDER PART II.2 OF THE ACT — ACTIVITIES REQUIRING ASSESSMENT
OF AIR EMISSIONS**

CONTENTS

PART I

INTERPRETATION AND APPLICATION

1. Interpretation
2. Prescribed activities, s. 20.21 (1) of the Act
3. Application, activities prescribed by more than one EASR regulation

PART II

REGISTRATION MATTERS

4. Prescribed date environmental compliance approval ceases to have effect
5. Registration of all activities at facility when first activity is registered
6. Registration requirement, Environmental Assessment Act undertakings
7. Registration requirement, Niagara Escarpment Planning and Development Act
8. Registration requirement, information to be filed
9. Continuation of applications for environmental compliance approval
10. Registration exemptions, modifications to facility

PART III

ACTIVITY REQUIREMENTS - CLAUSE 20.21 (1) (C) OF THE ACT

AIR

11. Air contaminants
12. EASR ESDM report requirements
13. EASR ESDM report supplement
14. Notice under s. 24 of Ontario Regulation 419/05
15. Notice to submit in-stack testing results

NOISE

16. Noise emissions
17. Noise report
18. Noise setback, subpara 8 i of s. 17 (1)
19. Primary noise screening, subpara 8 ii of s. 17 (1)
20. Secondary noise screening, subpara 8 iii of s. 17 (1)
21. Acoustic assessment, subpara 8 iv of s. 17 (1)
22. Noise abatement action plan, subpara 8 v of s. 17 (1)
23. Notice to prepare acoustic audit report

ODOUR

24. Odour emissions
25. Odour screening report
26. Best management practices plan for odour
27. Odour control report
28. Notice to submit best management practices plan for odour

FUGITIVE DUST

29. Best management practices plan for fugitive dust control
30. Notice to submit best management practices plan for fugitive dust control

OTHER ACTIVITY REQUIREMENTS

- 31. Small wood-fired combustors
- 32. Modifications to facility — requirement re reports
- 33. Procedures
- 34. Complaints

**PART IV
MISCELLANEOUS**

- 35. Records
- 36. Form of reports, etc.

**PART V
COMMENCEMENT**

- 37. Commencement
- Schedule

**PART I
INTERPRETATION AND APPLICATION**

Interpretation**1. (1)** In this Regulation,

“ACB list” means the document entitled “Air Contaminants Benchmarks (ACB) List: Standards, guidelines and screening levels for assessing point of impingement concentrations of air contaminants”, as amended from time to time and published by the Ministry and available on a Government website;

“acoustic assessment” means a detailed assessment of sound discharged into the air from sources of sound at a facility that assesses the predictable worst case sound levels at affected points of noise reception using calculations or measurements capable of accurately determining sound levels at points of noise reception;

“biogas” has the same meaning as in Ontario Regulation 160/99 (Definitions and Exemptions) made under the *Electricity Act, 1998*;

“biomass” has the same meaning as in Ontario Regulation 160/99;

“boiler” means a piece of equipment that includes a combustion source and that is used for the purpose of generating hot water or steam;

“combustion source” means a device in which combustible material is oxidized, resulting in the release of heat and products of combustion;

“combustion turbine” means a combustion source containing an engine that operates according to the Brayton thermodynamic cycle, in which fuel is burned and the products of combustion are allowed to expand through the blades of a rotating turbine at a high temperature;

“EASR ESDM report” means an Environmental Activity and Sector Registry Emission Summary and Dispersion Modelling report;

“EASR publication” means the document entitled “Environmental Activity and Sector Registry - Limits and Other Requirements”, setting out matters such as limits, intensity rates and requirements relating to the equipment and technology used at facilities, the operation of facilities, record-keeping and the monitoring and reporting of information relating to facilities, as amended from time to time and published by the Ministry and available on a Government website;

“EASR regulation” means a regulation made under the Act by which one or more activities are prescribed for the purposes of subsection 20.21 (1) of the Act;

“facility” means all plants, structures, equipment, apparatuses, mechanisms or things, including surfaces and storage piles, that function as a single integrated operation and that are,

- (a) owned or operated by the same person, and
- (b) located on the same site;

“heater” means a piece of equipment that includes a combustion source and that is used to transfer heat directly or indirectly to material that is being processed;

“land disposal”, with respect to waste, has the same meaning as in Regulation 347 (General —Waste Management) made under the Act;

“licensed engineering practitioner” means a person who holds a licence, limited licence or temporary licence under the *Professional Engineers Act*;

“modification”, in respect of a facility, means any of the following that may discharge or alter the rate or manner of discharge of a contaminant into the air:

1. the construction, alteration, extension or replacement of any plant, structure, equipment, apparatus, mechanism or thing,
2. the alteration of a process or rate of production;

“NAICS” means the North American Industry Classification System maintained for Canada by Statistics Canada, as amended from time to time;

“point of noise reception” means a point described in Chapter 3 of the EASR publication at which sound discharged into the air from a source of sound at a facility is received;

“point of odour reception” means a point described in Chapter 4 of the EASR publication at which odour discharged into the air from a source of odour at a facility is received;

“Primary Noise Screening Method” means the method, published by the Ministry as updated from time to time and available on a Government of Ontario website, for determining the minimum separation distance that would result in sound levels less than or equal to the sound level limits set out in Chapter 3 of the EASR publication;

“Registry” means the Environmental Activity and Sector Registry established under Part II.2 of the Act;

“Secondary Noise Screening Method” means the method, published by the Ministry as updated from time to time and available on a Government of Ontario website, for determining the combined sound level at an affected point of noise reception;

“site”, with respect to a facility, means the property on which the facility is located;

“small wood-fired combustor” means a wood-fired combustor that has a nominal load heat input capacity of less than three megawatts;

“thermal treatment” has the same meaning as in Regulation 347;

“wood-fired combustor” means a combustion source designed to burn wood fuel such as hogged wood fuel, wood chips, wood pellets, bark, sawdust, woodwaste, cellulosic plant material, paper or paper sludge.

(2) A reference in this Regulation to an activity being engaged in or another thing occurring at a facility is a reference to the activity being engaged in or the thing occurring at the site on which the facility is located.

Prescribed activities, s. 20.21 (1) of the Act

2. (1) Subject to subsections (2) and (3), the following are prescribed activities for the purposes of subsection 20.21 (1) of the Act:

1. The use, operation, construction, alteration, extension or replacement of any plant, structure, equipment, apparatus, mechanism or thing at a facility that may discharge or from which may be discharged a contaminant into any part of the natural environment other than water.
2. The alteration of a process or rate of production at a facility if the alteration may result in,
 - i. the discharge of a contaminant into any part of the natural environment other than water, or
 - ii. the alteration of the rate or manner of discharge of a contaminant into any part of the natural environment other than water.

(2) Subsection (1) does not apply in respect of the following activities:

1. An activity engaged in at a facility that is part of a class identified by a NAICS code listed in the Schedule to this Regulation, if the NAICS code is the primary NAICS code for the facility.
2. An activity engaged in at a facility that is part of a class identified by a NAICS code that begins with 3212 (Veneer, plywood and engineered wood product manufacturing) if that NAICS code is the primary NAICS code for the facility. However, subsection (1) does apply in respect of an activity engaged in at a facility that is part of a class identified by the NAICS code 321211 (Hardwood veneer and plywood mills).
3. An activity engaged in at a facility at which at least one of the following activities takes place:
 - i. The land disposal of waste.
 - ii. The processing or disposal of waste by way of thermal treatment, other than the thermal treatment of the fuel described in subparagraph iii in a small wood-fired combustor that was installed at the facility on or after January 31, 2017.
 - iii. The use of a wood-fired combustor, other than a small wood-fired combustor that was installed at the facility on or after January 31, 2017 and that exclusively uses as fuel one or more of the following:

- A. Wood briquettes that meet the specifications set out in Chapter 5 of the EASR publication.
- B. Wood chips that meet the specifications set out in Chapter 5 of the EASR publication.
- C. Wood pellets that meet the specifications set out in Chapter 5 of the EASR publication.
- iv. The use of a plating process that uses cadmium, cyanide, chromium or nickel, including chrome plating, electroplating or electroless plating.
- v. The use of an electrolytic stripping process that removes cadmium, chromium or nickel from an object.
- vi. The processing of metals outdoors, including torching, shearing, shredding or plasma cutting, other than for the purpose of routine maintenance carried out at the facility on any plant, structure, equipment, apparatus or thing.
- vii. The operation of an alternative low-carbon fuel site within the meaning of Ontario Regulation 79/15 (Alternative Low-Carbon Fuels) made under the Act.
- viii. The operation of an end-of-life vehicle waste disposal site within the meaning of Ontario Regulation 85/16 (Registrations under Part II.2 of the Act - End-of-life Vehicles) made under the Act.
- ix. The operation of a fossil-fuel electric power generation facility with a maximum electrical power output capacity equal to or greater than 25 megawatts.
- x. The operation of a combustion source that uses biogas, biomass, coal, petroleum coke or waste as a fuel or that uses a fuel derived from biogas, biomass, coal, petroleum coke or waste. However, this does not include the operation of a small wood-fired combustor that was installed at the facility on or after January 31, 2017 and that exclusively uses one or more of the fuels described in subparagraph iii.
- xi. The use of a combustion turbine.
- 4. An activity engaged in at a facility if a landfilling site that is no longer permitted to accept waste is located on the site on which the facility is located.
- 5. An activity engaged in at a facility if a site-specific air standard is or has previously been set in respect of the facility under section 35 of Ontario Regulation 419/05 (Air Pollution — Local Air Quality) made under the Act for a contaminant discharged from the facility.
- 6. An activity engaged in at a facility if, in respect of the facility, a person is or has previously been registered in the Ministry's Technical Standards Registry – Air Pollution under section 39 of Ontario Regulation 419/05.
- 7. A discrete activity involving the use of equipment that is intended to be moved from one site to another to perform the same function at each site, such as the use of mobile rock crushing equipment or mobile PCB destruction equipment.
- 8. An activity engaged in at a facility that is located on a property that is one of a group of properties that are deemed to be a single property under subsection 4 (2) of Ontario Regulation 419/05.
- 9. An activity that is exempt from subsection 9 (1) of the Act, other than an activity that is exempt by operation of subsection 9 (4) of the Act.

(3) Subsection (1) does not apply to activities engaged in with respect to a renewable energy project if, by operation of subsection 9 (1) of Ontario Regulation 359/09 (Renewable Energy Approvals Under Part V.0.1 of the Act) made under the Act, section 47.3 of the Act does not apply to a person engaging in the project.

Application, activities prescribed by more than one EASR regulation

3. (1) This section sets out the rules governing the application of this Regulation with respect to an activity that is prescribed for the purposes of subsection 20.21 (1) of the Act by section 2 of this Regulation and that is also prescribed by another EASR regulation.

(2) This Regulation applies with respect to an activity described in subsection (1) and the other EASR regulation is deemed not to apply with respect to the activity.

(3) Despite subsection (2), this Regulation does not apply with respect to an activity described in subsection (1), and the other EASR regulation continues to apply with respect to the activity, if the only activities engaged in at the facility at which the activity is engaged in are one or more of the following:

- 1. Activities described in subsection (1) that are all prescribed under a single other EASR regulation.
- 2. Activities described in paragraph 9 of subsection 2 (2).

(4) Despite subsection (2), if the person engaging in an activity described in subsection (1) at a facility has registered the activity in the Registry before the day this Regulation came into force, this Regulation does not apply with respect to the activity and the other EASR regulation continues to apply with respect to the activity until the earlier of the following days:

1. The date, as set out in a confirmation of registration provided by the Director, on which a registration is in effect in respect of an additional activity in which the person engages at the facility and that is prescribed for the purposes of subsection 20.21 (1) of the Act under this Regulation.
2. January 31, 2027.

PART II REGISTRATION MATTERS

Prescribed date environmental compliance approval ceases to have effect

4. For the purposes of clause 20.17 (b) of the Act, January 31, 2027 is prescribed as the day on which an environmental compliance approval issued in respect of an activity prescribed by section 2 of this Regulation ceases to apply to the activity.

Registration of all activities at facility when first activity is registered

5. (1) This section applies to a person who, before January 31, 2027, registers an activity that is prescribed by section 2 in the Registry if, immediately before the person registers the activity in respect of a facility, an environmental compliance approval in respect of the activity is in effect.

(2) Subject to sections 6 and 7, a person to whom this section applies shall, when registering the activity in the Registry, register all other activities prescribed by section 2 in which the person engages or proposes to engage at the facility.

Registration requirement, *Environmental Assessment Act* undertakings

6. A person who proposes to engage in an activity prescribed by section 2 that forms part of an undertaking to which Part II or II.1 of the *Environmental Assessment Act* applies shall not register the activity in the Registry until,

- (a) if a class environmental assessment approved under Part II.1 of that Act applies with respect to the undertaking and no order has been issued with respect to the proposed undertaking under section 16 of that Act, the day all requirements necessary to proceed with the undertaking under the class environmental assessment have been satisfied; or
- (b) in the case of any other undertaking, the day an approval is given under Part II of that Act to proceed with the undertaking.

Registration requirement, *Niagara Escarpment Planning and Development Act*

7. (1) A person who proposes to engage in an activity prescribed by section 2 at a facility that is located in an area of development control within the Niagara Escarpment Planning Area shall not register the activity in the Registry before a development permit required under section 24 of the *Niagara Escarpment Planning and Development Act* has been issued in respect of the facility.

(2) In this section,

“Niagara Escarpment Planning Area” has the same meaning as in the *Niagara Escarpment Planning and Development Act*.

Registration requirement, information to be filed

8. The following information shall be filed in the Registry under subsection 2 (1) of Ontario Regulation 245/11 (Registrations Under Part II.2 of the Act — General) made under the Act:

1. The Emissions Summary Table required under section 12 of this Regulation to be included in the EASR ESDM report in respect of the facility at which the activity is engaged in.
2. If an acoustic assessment has been conducted in respect of that facility, the Acoustic Assessment Summary Table required under Chapter 3 of the EASR publication for the purposes of sections 21 and 22 of this Regulation.

Continuation of applications for environmental compliance approval

9. (1) If an application for approval to engage in an activity mentioned in subsection 9 (1) of the Act was submitted to the Director on or before December 31, 2016 and the Director did not make a decision with respect to the application before that day,

- (a) the application is exempt from subsection 20.2 (3) of the Act; and
- (b) the application is exempt from subsection 20.3 (2) of the Act.

(2) A person who is engaging in an activity in respect of which an application for approval described in subsection (1) has been made is exempt from subsection 20.21 (1) of the Act until the earliest of the following days:

1. The day the person withdraws the application.
2. The day the Director refuses to issue an environmental compliance approval in respect of the activity.
3. If the Director issues an environmental compliance approval in respect of the activity, the day the approval ceases to apply in respect of the activity as determined under section 20.17 of the Act.

Registration exemptions, modifications to facility

10. (1) This section applies with respect to a person who modifies or proposes to modify a facility if the modification involves an activity prescribed by section 2.

(2) Subject to subsection (3), the person is exempt from clauses 20.21 (1) (a) and (b) of the Act in respect of the activity if,

- (a) the activity is engaged in at a facility in respect of which the person has previously registered an activity prescribed by section 2 of this Regulation; and
- (b) the registration in respect of the previously registered activity has been neither suspended nor removed from the Registry.

(3) Subsection (2) does not apply if the previous registration was filed in respect of an activity that is prescribed by another EASR regulation.

PART III
ACTIVITY REQUIREMENTS - CLAUSE 20.21 (1) (C) OF THE ACT

AIR

Air contaminants

11. (1) For the purposes of clause 20.21 (1) (c) of the Act, a person who engages in an activity prescribed by section 2 of this Regulation shall ensure that the following requirements are complied with in respect of the facility at which the activity is engaged in:

1. At all times when engaging in the activity, an EASR ESDM report that meets the requirements in section 12 must be available at the facility.
2. A new EASR ESDM report that meets the requirements in section 12 must be prepared at least once every 10 years.
3. Each EASR ESDM report prepared in respect of the facility must be accompanied by an EASR ESDM report supplement that meets the requirements in section 13.
4. At all times when engaging in the activity, the person engaging in the activity must ensure that the facility is operating within the operational parameters set out in the EASR ESDM report supplement.
5. At all times when engaging in the activity, the person shall ensure that the following rules are adhered to with respect to the concentration of each of the following contaminants discharged from the facility at a point of impingement:
 - i. If the contaminant is identified in the ACB list as belonging to the category "Benchmark 1", the concentration must be at or below the concentration for each specified averaging period set out for the contaminant in that document.
 - ii. If the contaminant is identified in the ACB list as belonging to the category "Benchmark 2",
 - A. the concentration must be at or below the concentration for each specified averaging period set out for the contaminant in that document, or
 - B. if the concentration is above the concentration for a specified averaging period set out for the contaminant in that document, the concentration must not be likely to cause an adverse effect for that averaging period.
 - iii. If subparagraphs i and ii do not apply to the contaminant, the concentration must not be likely to cause an adverse effect for a specified averaging period that relates to the adverse effect.
6. Subject to paragraph 7, at all times when engaging in the activity, the person shall ensure that each piece of combustion equipment listed in the EASR ESDM supplement as required by paragraph 9 of subsection 13 (1) is operated in a manner that does not result in the discharge of a contaminant,
 - i. at an emission intensity rate that exceeds an applicable intensity rate set out for the contaminant in Chapter 1 of the EASR publication, or
 - ii. in a concentration that exceeds an applicable limit set out for the contaminant in Chapter 1 of the EASR publication.
7. Paragraph 6 does not apply,
 - i. to combustion equipment during its start-up and shut-down periods, or
 - ii. to a boiler or heater during a period when, in a year, it uses a fuel other than the primary fuel identified in the EASR ESDM supplement in respect of the boiler or heater if,
 - A. the supplement confirms that the total number of hours during which the boiler or heater uses non-primary fuels in a year does not exceed 500, and

B. the boiler or heater has not used non-primary fuels for more than 500 hours in that year.

(2) In this section,

“shut-down” means an operating condition during which the operation of a piece of combustion equipment is decreased from normal operating conditions to an inoperative state;

“start-up” means an operating condition during which the operation of a piece of combustion equipment is increased from an inoperative state to normal operating conditions.

EASR ESDM report requirements

12. (1) The following are the requirements for an EASR ESDM report:

1. It must be dated, signed and sealed by a licensed engineering practitioner and set out the practitioner’s name and licence number.
2. The information in the report must be accurate as of the date it is signed and sealed.
3. It must set out the primary NAICS code and any other applicable NAICS codes for the facility.
4. It must be prepared in accordance with section 26 of Ontario Regulation 419/05 (Air Pollution — Local Air Quality) made under the Act, subject to subsection (2) of this section, using one or more approved dispersion models in accordance with subsection 6 (1) of that Regulation. The approved dispersion models must be used in accordance with sections 9 to 17 of that Regulation.
5. It must demonstrate that the concentration of each contaminant discharged or proposed to be discharged from the facility into the air, predicted by the approved dispersion model for the point of impingement with the highest concentration of the contaminant, meets one of the following criteria:
 - i. If the contaminant is identified in the ACB list as belonging to the category “Benchmark 1”, the concentration must be at or below the concentration for each specified averaging period set out for the contaminant in that document.
 - ii. If the contaminant is identified in the ACB list as belonging to the category “Benchmark 2”,
 - A. the concentration must be at or below the concentration for each specified averaging period set out for the contaminant in that document, or
 - B. if the concentration is above the concentration for a specified averaging period set out for the contaminant in that document, the concentration must not be likely to cause an adverse effect for that averaging period.
 - iii. If subparagraphs i and ii do not apply to the contaminant, the concentration must not be likely to cause an adverse effect for a specified averaging period that relates to the adverse effect.

(2) The Emissions Summary Table described in paragraph 14 of subsection 26 (1) of Ontario Regulation 419/05 and required to be prepared under paragraph 4 of subsection (1) must include the following information in addition to the information required by Ontario Regulation 419/05:

1. With respect to each contaminant to which sections 19 and 20 of Ontario Regulation 419/05 do not apply in respect of an averaging period, a comparison between the concentration predicted by the approved dispersion model for the point of impingement with the highest concentration and the concentration for the contaminant set out in the ACB list.
2. The comparison described in paragraph 1 must be included for each averaging period set out for the contaminant in the ACB list.
3. The comparison described in paragraph 1 must be expressed as a percentage of the concentration set out in the ACB list.

EASR ESDM report supplement

13. (1) The following are the requirements for an EASR ESDM report supplement:

1. It must set out the name of the person who completed it and must be dated and signed by that person.
2. The information in the report must be accurate as of the date it is signed.
3. It must set out the legal name of each owner of the facility and the name under which each owner carries on business, if it is not the owner’s legal name.
4. If the person who operates the facility is not an owner, the supplement must set out the legal name of each person who operates the facility and the name under which each operator carries on business, if it is not the operator’s legal name.
5. It must set out the site address of the facility.

6. It must contain a statement signed by the person engaging in the prescribed activity confirming that all information the person gave to the licensed engineering practitioner in order to prepare the EASR ESDM report was complete and accurate.
 7. It must contain a statement, signed by the licensed engineering practitioner who signed and sealed the EASR ESDM report, that includes the following:
 - i. Confirmation that, based on the information provided to the practitioner, the information in the report is accurate as of the date it is signed and sealed.
 - ii. Confirmation that the EASR ESDM report was prepared in accordance with section 26 of Ontario Regulation 419/05 (Air Pollution — Local Air Quality) made under the Act and with subsection 12 (2) of this Regulation.
 - iii. Confirmation that one or more approved dispersion models were used to prepare the EASR ESDM report and that the models were used in accordance with sections 9 to 17 of Ontario Regulation 419/05.
 - iv. A statement indicating whether the information set out in the EASR ESDM report under paragraph 5 of subsection 12 (1) with respect to the concentration of contaminants is based on proposed discharges.
 - v. A description of the methods and procedures that were employed in preparing the report to ensure minimization of errors and omissions.
 - vi. A description of the operational parameters that were determined for the purpose of preparing the EASR ESDM report, including the maximum rates of production, process limits, performance limits and parameters relating to equipment and infrastructure.
 - vii. A description of the operating and maintenance procedures required to ensure that the facility is operating within the operational parameters referred to in subparagraph vi and subparagraph 9 i.
 8. It must contain a statement, signed by a licensed engineering practitioner, confirming that each piece of combustion equipment listed in subsection (2) that is used or proposed to be used at the facility is designed to discharge the contaminants set out in Chapter 1 of the EASR publication with respect to the piece of combustion equipment in an amount that is less than or equal to the applicable limit set out for the contaminant in that Chapter.
 9. The statement required by paragraph 8 must set out the basis for the confirmation provided under that paragraph, including the following information with respect to each piece of combustion equipment:
 - i. The information required under Chapter 1 of the EASR publication related to the design of the combustion equipment, the operational parameters for the combustion equipment and emission estimating techniques used to form the basis for the confirmation under paragraph 8.
 - ii. For a boiler or heater, its maximum energy input capacity, the primary type of fuel it uses and any non-primary fuels that it may use, the total number of hours in a year that non-primary fuels may be used, the air pollution control equipment installed in or attached to it, the date it was installed or is proposed to be installed at the facility, the date of the most recent modification made to it, and, if applicable, the hours it is intended to be used.
 - iii. For an electricity generation engine, the type of fuel used in it, its power rating, its intended purpose, the air pollution control equipment installed in or attached to it, the date it was installed or is proposed to be installed at the facility, the date of the most recent modification made to it and, if applicable, the hours it is intended to be used.
 - iv. For a small wood-fired combustor, the type of fuel used in it, confirmation that it has an automated wood fuel feed system, its nominal load heat input and output capacity, its partial load heat input and output capacity, the air pollution control equipment installed in or attached to it, the date it was installed or is proposed to be installed at the facility and the date of the most recent modification made to it.
- (2) The combustion equipment referred to in paragraph 8 of subsection (1) is the following:
1. A boiler or heater, unless the boiler or heater meets any of the following criteria:
 - i. It uses a fuel other than gaseous fuel, distillate oil or residual oil.
 - ii. Its maximum energy input capacity is less than or equal to 10.5 gigajoules per hour.
 - iii. It was installed at the facility before March 31, 2001 and has not been modified since its installation.
 - iv. It uses fuel derived from a primary process or operation at the facility and the fuel is not produced for commercial purposes at the facility.
 - v. It is used to recover heat from the exhaust gases of another combustion source.
 - vi. The combustion source included in the boiler or heater is a combustion turbine, a small wood-fired combustor or an electricity generation engine.

2. An electricity generation engine, unless the electricity generation engine meets any of the following criteria:
 - i. It is in a standby power system.
 - ii. It is used to generate electricity for use in a community or facility that is located in an off-grid area described in Chapter 2 of the EASR publication.
 - iii. It is used to generate electricity for use in a remote community or a remote facility described in Chapter 2 of the EASR publication.
 - iv. It was installed in the facility before February 27, 2009, it has not been modified since its installation, and on the day immediately before the first registration in respect of the facility is filed in the Registry, an environmental compliance approval in respect of the engine is in effect.
3. A small wood-fired combustor, unless the small wood-fired combustor meets the following criterion:
 - i. It is exempt from the application of section 9 of the Act by Ontario Regulation 524/98 (Environmental Compliance Approvals — Exemptions from Section 9 of the Act) made under the Act.

(3) If an EASR ESDM report lists a contaminant set out in Schedule 3 to Ontario Regulation 419/05 that is discharged or proposed to be discharged before February 1, 2020, the EASR ESDM report supplement may contain a statement by the licensed engineering practitioner confirming that the EASR ESDM report has been prepared as if section 20 of that Regulation applies to the contaminant.

(4) If the EASR ESDM report supplement contains the statement described in subsection (3), the person engaging in the activity is deemed to have requested the notice mentioned in subsection 20 (4) of Ontario Regulation 419/05 and the Director is deemed to have given notice to the person requiring the person to comply with section 20 of that Regulation with respect to the contaminant as of the date the EASR ESDM report was prepared.

(5) In this section,

“electricity generation engine” means a combustion source that is a reciprocating engine and that is used to generate electricity;

“standby power system” means any apparatus, mechanism, equipment or other thing, and any related exhaust stacks, fuel tanks and piping, that includes one or more electricity generation engines and that is intended to be used only for the provision of electrical power during power outages or involuntary power reductions.

Notice under s. 24 of Ontario Regulation 419/05

14. (1) A person who engages in an activity prescribed by section 2 and who receives a notice from the Director under section 24 of Ontario Regulation 419/05 (Air Pollution — Local Air Quality) made under the Act shall prepare, not later than the date specified in the notice,

- (a) a new EASR ESDM report that meets the requirements of section 12; and
- (b) a new EASR ESDM report supplement that meets the requirements in section 13.

(2) If the person is also required to update a report under subsection 25 (5) of Ontario Regulation 419/05, the person shall also prepare, in accordance with the timelines applicable to that subsection,

- (a) a new EASR ESDM report that meets the requirements of section 12; and
- (b) a new EASR ESDM report supplement that meets the requirements in section 13.

Notice to submit in-stack testing results

15. (1) The Director may give written notice to a person who engages in an activity prescribed by section 2 that involves a piece of combustion equipment listed in subsection 13 (2) requiring the person to submit to the Director the results of in-stack testing if no such results in respect of the piece of combustion equipment have previously been submitted to the Director.

(2) The Director may also give written notice to a person who engages in an activity prescribed by section 2 that involves a piece of combustion equipment listed in subsection 13 (2) requiring the person to submit to the Director the results of in-stack testing if the Director has reasonable grounds to believe that,

- (a) a discharge from the combustion equipment may cause an adverse effect; or
- (b) the combustion equipment is discharging a contaminant in an amount that is greater than the intensity rate or limit set out in Chapter 1 of the EASR publication for the contaminant and the combustion equipment.

(3) Before the Director gives a person a notice under this section, the Director shall give the person a draft of the notice, with reasons, and an opportunity to make written submissions to the Director during the period that ends 30 days after the draft is given.

(4) A person to whom the Director has given written notice under subsection (1) or (2) shall ensure that the in-stack testing is conducted in accordance with the Director's notice and that the results are submitted not later than the date specified in the notice.

(5) In this section,

"flue gas" means a gas that is generated by a combustion process;

"in-stack testing" means the measurement of the amount of combustion contaminants in the flue gas of a piece of combustion equipment.

NOISE

Noise emissions

16. For the purposes of clause 20.21 (1) (c) of the Act, a person who engages in an activity prescribed by section 2 of this Regulation shall ensure that the following requirements are complied with in respect of the facility at which the person engages in the activity:

1. At all times when engaging in the activity, a noise report that meets the requirements in sections 17 to 22 must be available at the facility.
2. A new noise report that meets the requirements in sections 17 to 22 must be prepared at least once every 10 years.
3. If a noise abatement action plan is prepared under subparagraph 8 v of subsection 17 (1), it must be implemented in accordance with its contents.
4. At all times when engaging in the activity, the person engaging in the activity must ensure that the facility is operating within the operational parameters, if any, set out in the noise report. However, this requirement does not apply if a noise abatement action plan is being implemented at the facility.
5. At all times when engaging in the activity, the person shall ensure that the combined sound level resulting from the sound discharged from the facility does not exceed the applicable sound level limit set out in Chapter 3 of the EASR publication at each affected point of noise reception. However, this requirement does not apply if a noise abatement action plan is being implemented at the facility.
6. At all times when engaging in the activity, the person engaging in the activity must ensure that the facility is implementing the noise control measures and procedures, if any, set out in the noise report.
7. Each record described in Chapter 3 of the EASR publication in respect of a source of sound must be prepared and retained at the facility for the period set out in that Chapter, or if no retention period is set out in that Chapter, for 20 years after its creation.

Noise report

17. (1) The following are the requirements for a noise report:

1. It must be dated, signed and sealed by a licensed engineering practitioner and set out the practitioner's name and licence number.
2. The information in the report must be accurate as of the date it is signed and sealed.
3. It must set out the primary NAICS code and any other applicable NAICS codes for the facility.
4. It must contain a statement by the licensed engineering practitioner mentioned in paragraph 1 confirming that, based on the information provided to the practitioner, the information in the report is accurate as of the date it is signed and sealed.
5. It must set out the legal name of each owner of the facility and the name under which each owner carries on business, if it is not the owner's legal name.
6. If the person who operates the facility is not an owner, the noise report must set out the legal name of each person who operates the facility and the name under which each operator carries on business, if it is not the operator's legal name.
7. It must set out the site address of the facility.
8. It must contain a statement by the licensed engineering practitioner mentioned in paragraph 1 confirming that one of the following criteria is met:
 - i. The distance between the facility and the property boundary of the closest point of noise reception is equal to or greater than 1000 metres.
 - ii. The actual separation distance from the facility to the closest point of noise reception is equal to or greater than the minimum separation distance, as determined by using the Primary Noise Screening Method.

- iii. The combined sound level resulting from sound discharged from the facility at each affected point of noise reception, as determined using the Secondary Noise Screening Method, is less than or equal to the applicable sound level limit set out in Chapter 3 of the EASR publication.
- iv. The combined sound level resulting from sound discharged from the facility at each affected point of noise reception, as determined using an acoustic assessment, is less than or equal to the applicable sound level limit set out in Chapter 3 of the EASR publication.
- v. A noise abatement action plan is included in the noise report. This criterion applies only in respect of a facility that commenced operation before the day this Regulation came into force and at which, as of the day the first registration in respect of the facility is filed in the Registry, the combined sound level resulting from sound discharged from the facility at an affected point of noise reception, as determined using an acoustic assessment, is greater than the applicable sound level limit set out in Chapter 3 of the EASR publication.

(2) For the purpose of subparagraph 8 i of subsection (1), the distance between a facility and the property boundary of a point of noise reception shall be measured from Point A to Point B in accordance with the following:

- 1. Point A is,
 - i. the point that is located on the exterior wall of a building at the facility and that is closest to the property boundary of the point of noise reception, or
 - ii. if there is an outdoor source of sound at the facility that is located closer to the property boundary of the point of noise reception than the point mentioned in subparagraph i, the point that is located on the edge of the outdoor source of sound and that is closest to the property boundary of the point of noise reception.
- 2. Point B is the point that is located on the property boundary of the point of noise reception and that is closest to Point A.

Noise setback, subpara 8 i of s. 17 (1)

18. If the licensed engineering practitioner confirms that the criterion in subparagraph 8 i of subsection 17 (1) is met, the noise report must contain a drawing, made to scale, that shows Points A and B described in subsection 17 (2).

Primary noise screening, subpara 8 ii of s. 17 (1)

19. If the licensed engineering practitioner confirms that the criterion in subparagraph 8 ii of subsection 17 (1) is met, the noise report must contain the following:

- 1. Confirmation that the comparison of the actual separation distance and the minimum separation distance was performed in accordance with the Primary Noise Screening Method.
- 2. A copy of all the information used for the Primary Noise Screening Method and the results it generated.

Secondary noise screening, subpara 8 iii of s. 17 (1)

20. If the licensed engineering practitioner confirms that the criterion in subparagraph 8 iii of subsection 17 (1) is met, the noise report must contain the following:

- 1. Confirmation that the combined sound levels were determined using the Secondary Noise Screening Method.
- 2. Confirmation that the affected points of noise reception were determined using the Secondary Noise Screening Method.
- 3. A copy of all the information used for the Secondary Noise Screening Method and the results it generated.
- 4. A description of any acoustical barrier used or proposed to be used with respect to each source of sound.
- 5. A description of the operational parameters that were determined for the purpose of the noise report, including,
 - i. the facility's maximum rates of production, process limits and performance limits,
 - ii. parameters relating to equipment and infrastructure at the facility,
 - iii. the time of day a source of sound is operating or is proposed to be operating,
 - iv. the duration of time a source of sound is operating or is proposed to be operating, and
 - v. whether the sound is tonal or non-tonal.
- 6. A description of the operating and maintenance procedures required to ensure that the facility is operating within the operational parameters referred to in paragraph 5.
- 7. A statement signed by the person engaging in the prescribed activity confirming that all information the person gave to the licensed engineering practitioner in order to prepare the noise report was complete and accurate.

Acoustic assessment, subpara 8 iv of s. 17 (1)

21. If the licensed engineering practitioner confirms that the criterion in subparagraph 8 iv of subsection 17 (1) is met, the noise report must contain the following:

1. The information and confirmations described in paragraphs 5 to 7 of section 20.
2. A description of each noise control measure or procedure used with respect to a source of sound in order to ensure that the sound level at each affected point of noise reception does not exceed the applicable sound level limits set out in Chapter 3 of the EASR publication.
3. Confirmation that the affected points of noise reception were determined in accordance with Chapter 3 of the EASR publication.
4. A description of the methods and procedures that were employed in preparing the report to ensure minimization of error and omissions.
5. The information required under Chapter 3 of the EASR publication, including the Acoustic Assessment Summary Table required under that Chapter.

Noise abatement action plan, subpara 8 v of s. 17 (1)

22. If the licensed engineering practitioner confirms that the criterion in subparagraph 8 v of subsection 17 (1) is met, the noise report must contain the following:

1. The information and confirmations described in paragraphs 5 and 7 of section 20.
2. A description of each noise control measure or procedure used with respect to a source of sound.
3. Confirmation that the affected points of noise reception were determined in accordance with Chapter 3 of the EASR publication.
4. A description of the methods and procedures that were employed in preparing the report to ensure minimization of error and omissions.
5. The information required under Chapter 3 of the EASR publication, including the Acoustic Assessment Summary Table required under that Chapter.
6. A noise abatement action plan that describes the measures and procedures required to be implemented to prevent or minimize the sound discharged from the facility in order to ensure that the sound level at each affected point of noise reception does not exceed the applicable sound level limits set out in Chapter 3 of the EASR publication.
7. A schedule for implementing the noise control measures and procedures described in paragraph 6, including specific dates by which they will be implemented.

Notice to prepare acoustic audit report

23. (1) The Director may give written notice to a person who engages in an activity prescribed by section 2 requiring the person to submit to the Director an acoustic audit report that meets the requirements in subsection (3) if the person discharges or causes or permits the discharge of sound into the air from a source of sound at the facility at which the person engages in the activity, and

- (a) the Director has reasonable grounds to believe that,
 - (i) the discharge may cause an adverse effect, or
 - (ii) the sound level resulting from the discharge at an affected point of noise reception is greater than the applicable sound level limit set out in Chapter 3 of the EASR publication; or
- (b) the most recent noise report in respect of the facility confirms that the criterion in subparagraph 8 iv or v of subsection 17 (1) is met.

(2) Before the Director gives a person a notice under this section, the Director shall give the person a draft of the notice, with reasons, and an opportunity to make written submissions to the Director during the period that ends 30 days after the draft is given.

(3) The following are the requirements for an acoustic audit report:

1. It must be dated, signed and sealed by a licensed engineering practitioner and set out the practitioner's name and licence number.
2. It must set out the primary NAICS code and any other applicable NAICS codes for the facility.
3. It must summarize the results of an acoustic audit conducted in accordance with the Director's notice.

4. The licensed engineering practitioner who signs and seals the report must not be the same licensed engineering practitioner who signed and sealed the most recent noise report prepared for the purposes of paragraph 1 of section 16.
- (4) A person to whom the Director has given a notice under this section shall ensure that the acoustic audit report is prepared in accordance with the Director's notice and submitted not later than the date specified in the notice.
- (5) For the purpose of this section, an acoustic audit must,
 - (a) verify the sound level at one or more affected points of noise reception by,
 - (i) measuring the sound level at the affected point of noise reception, or
 - (ii) if it is not possible to measure the sound level at the affected point of noise reception, measuring the sound level at a point near to the affected point of noise reception and predicting the sound level at the affected point of noise reception;
 - (b) confirm that the noise control measures and procedures set out in the noise report are being implemented; and
 - (c) verify the sound level limits and affected points of noise reception set out in the noise report.

ODOUR

Odour emissions

24. For the purposes of clause 20.21 (1) (c) of the Act, a person who engages in an activity prescribed by section 2 of this Regulation shall ensure that the following requirements are complied with:

1. At all times when engaging in the activity, an odour screening report that meets the requirements in section 25 must be available at the facility at which the person engages in the activity.
2. A new odour screening report that meets the requirements in section 25 must be prepared at least once every 10 years.
3. At all times when engaging in the activity, a best management practices plan for odour that meets the requirements in section 26 must be available at the facility if, as of the date the odour screening report is completed, any of the following circumstances exists:
 - i. The activity is engaged in at a facility for which the primary or secondary NAICS code is set out in Table 1 of Chapter 4 of the EASR publication, the design capacity of the facility meets the criteria set out opposite the NAICS code in that Table, and the distance between the facility and the closest point of odour reception is less than the distance set out opposite the NAICS code in that Table as measured in accordance with that Chapter.
 - ii. The activity relates to a process set out in Table 2 of Chapter 4 of the EASR publication and the distance between the facility and the closest point of odour reception is less than the distance set out opposite the process in that Table as measured in accordance with that Chapter.
 - iii. The activity is engaged in at a facility for which the primary or secondary NAICS code is set out in Table 3 of Chapter 4 of the EASR publication and the design capacity of the facility meets the criteria set out opposite the NAICS code in that Table.
 - iv. The activity relates to a process set out in Table 4 of Chapter 4 of the EASR publication.
 - v. The Director has given the person a notice under section 28 requiring the person to submit a best management practices plan for odour to the Director, the date for submitting the plan has passed, and the notice has not been revoked.
4. The best management practices plan for odour must be implemented in accordance with its contents.
5. At all times when engaging in the activity, an odour control report that meets the requirements in section 27 must be available at the facility if either of the following circumstances exists:
 - i. The activity is engaged in at a facility for which the primary or secondary NAICS code is set out in Table 3 of Chapter 4 of the EASR publication, the design capacity of the facility meets the criteria set out opposite the NAICS code in that Table, and the distance between the facility and the closest point of odour reception is less than the distance set out opposite the NAICS code in that Table as measured in accordance with that Chapter.
 - ii. The activity relates to a process set out in Table 4 of Chapter 4 of the EASR publication and the distance between the facility and the closest point of odour reception is less than the distance set out opposite the process in that Table as measured in accordance with that Chapter.
6. The best management practices plan for odour and the odour control report must be reviewed at least once in every 10-year period by a licensed engineering practitioner.
7. An updated best management practices plan for odour must be prepared at least once in every 10-year period by a licensed engineering practitioner. However, this requirement does not apply if a licensed engineering practitioner

provides the person engaging in the activity with an addendum to the most recent best management plan confirming that the practitioner has reviewed the plan, the information in the plan remains accurate, and no additional measures are necessary to prevent or minimize the discharge of odour from the facility. The addendum must be dated and signed by the licenced engineering practitioner.

8. An updated odour control report must be prepared at least once in every 10-year period by a licensed engineering practitioner. However, this requirement does not apply if a licenced engineering practitioner provides the person engaging in the activity with an addendum to the most recent odour control report confirming that the practitioner has reviewed the report and that the information in the report remains accurate. The addendum must be dated and signed by the licenced engineering practitioner.
9. Each record described in Chapter 4 of the EASR publication in respect of a source of odour must be prepared and retained at the facility for the period set out in that Chapter, or if no retention period is set out in that Chapter, for 20 years after its creation.

Odour screening report

25. The following are the requirements for an odour screening report:

1. It must set out the name of the person who completed it and must be dated and signed by that person.
2. The information in the report must be accurate as of the date the report is completed.
3. It must set out the primary NAICS code and, if applicable, the secondary NAICS code for the facility.
4. It must set out the legal name of each owner of the facility and the name under which each owner carries on business, if it is not the owner's legal name.
5. If the person who operates the facility is not an owner, the odour screening report must set out the legal name of each person who operates the facility and the name under which each operator carries on business, if it is not the operator's legal name.
6. It must set out the site address of the facility.
7. It must include a description of any of the circumstances set out in paragraph 3 or 5 of section 24 that exist in respect of the facility.

Best management practices plan for odour

26. The following are the requirements for a best management practices plan for odour:

1. It must be dated, signed and sealed by a licensed engineering practitioner and set out the practitioner's name and licence number.
2. The information in the plan must be accurate as of the date it is signed and sealed.
3. It must contain a statement by the licensed engineering practitioner mentioned in paragraph 1 confirming that, based on the information provided to the practitioner, the information in the plan is accurate as of the date it is signed and sealed.
4. It must contain a statement signed by the person engaging in the prescribed activity confirming that all information the person gave to the licensed engineering practitioner in order to prepare the plan was complete and accurate.
5. It must set out the legal name of each owner of the facility and the name under which each owner carries on business, if it is not the owner's legal name.
6. If the person who operates the facility is not an owner, the plan must set out the legal name of each person who operates the facility and the name under which each operator carries on business, if it is not the operator's legal name.
7. It must set out the site address of the facility.
8. It must set out the following with respect to each source of odour at the facility, including each fugitive source of odour:
 - i. Potential causes for occasional increases in the discharge of odour from the source into the air.
 - ii. If the best management practices plan for odour is the first such plan prepared in respect of the facility, confirmation that the terms or conditions, if any, relating to the control of the discharge of odour from the facility included in an environmental compliance approval that was in effect immediately before the registration in the Registry of an activity engaged in at the facility were considered in the preparation of the best management practices plan for odour.
 - iii. Measures and procedures implemented at the facility to prevent or minimize the discharge of odour from the source into the air.

- iv. Inspection, maintenance and monitoring procedures to ensure the adoption and continued implementation of measures and procedures to prevent or minimize the discharge of odour from the source into the air.
- v. Identification of additional measures and procedures that should be implemented at the facility to prevent or minimize the discharge of odour from the source into the air, if any, including:
 - A. A description of the additional measures to be implemented.
 - B. A description of the additional preventative procedures to be implemented.
 - C. If the additional preventative procedures are to be implemented periodically, the frequency with which the procedures are to be implemented.
 - D. A schedule for the implementation of the additional measures, including training of workers.
 - E. Inspection, maintenance and monitoring procedures to ensure the adoption and continued implementation of the measures and procedures.

Odour control report

27. The following are the requirements for an odour control report:

- 1. It must be dated, signed and sealed by a licensed engineering practitioner and set out the practitioner's name and licence number.
- 2. The information in the report must be accurate as of the date it is signed and sealed.
- 3. It must contain a statement by the licensed engineering practitioner mentioned in paragraph 1 confirming that, based on the information provided to the practitioner, the information in the report is accurate as of the date it is signed and sealed.
- 4. It must contain a statement signed by the person engaging in the prescribed activity confirming that all information the person gave to the licensed engineering practitioner in order to prepare the report was complete and accurate.
- 5. It must set out the legal name of each owner of the facility and the name under which each owner carries on business, if it is not the owner's legal name.
- 6. If the person who operates the facility is not an owner, the report must set out the legal name of each person who operates the facility and the name under which each operator carries on business, if it is not the operator's legal name.
- 7. It must set out the site address of the facility.
- 8. It must set out the following:
 - i. A list of the measures and procedures that are used in similar facilities, including facilities in other jurisdictions, to prevent or minimize the discharge of odour, including measures and procedures such as the use of air pollution control technology and the implementation of changes to equipment, processes or materials.
 - ii. An analysis of the measures and procedures identified under subparagraph i, and potential combinations of them, to determine which would be technically feasible to implement at the facility in order to prevent or minimize the discharge of odour.
 - iii. A list of the measures and procedures or combinations that are determined under subparagraph ii to be technically feasible to implement at the facility and, for each measure or procedure that is not included in the best management practices plan for odour, an explanation of why that measure or procedure is not necessary to adequately prevent or minimize the discharge of odour from the facility.
 - iv. An explanation of why the measures and procedures set out in the best management practices plan for odour are adequate to prevent or minimize the discharge of odour from the facility.

Notice to submit best management practices plan for odour

28. (1) The Director may give written notice to a person who engages in an activity prescribed by section 2 requiring the person to submit to the Director a best management practices plan for odour that meets the requirements in section 26 if the person discharges or causes or permits the discharge of odour into the air, and,

- (a) the Director has reasonable grounds to believe that the discharge may cause an adverse effect; and
- (b) either,
 - (i) the person is not otherwise required to prepare a best management practices plan for odour under subparagraphs 3 i to iv of section 24, or
 - (ii) the best management practices plan for odour did not include the source of the odour.

(2) Before the Director gives a person a notice under this section, the Director shall give the person a draft of the notice, with reasons, and an opportunity to make written submissions to the Director during the period that ends 30 days after the draft is given.

(3) The best management practices plan for odour required under subsection (1) must be prepared in accordance with the Director's notice and must be submitted not later than the date specified in the notice.

FUGITIVE DUST

Best management practices plan for fugitive dust control

29. (1) For the purposes of clause 20.21 (1) (c) of the Act, a person who engages in an activity prescribed by section 2 of this Regulation shall ensure that the following requirements are complied with if the most recent EASR ESDM report in respect of the facility at which the person engages in the activity identifies a source of fugitive dust:

1. At all times when engaging in the activity, a best management practices plan for fugitive dust control in respect of the facility that meets the requirements in subsection (2) must be available at the facility.
 2. The plan must be implemented in accordance with its contents.
 3. The best management practices plan for fugitive dust control must be reviewed at least once in every 10-year period by a licensed engineering practitioner.
 4. An updated best management practices plan for fugitive dust control must be prepared at least once in every 10-year period by a licensed engineering practitioner. However, this requirement does not apply if a licensed engineering practitioner provides the person engaging in the activity with an addendum to the most recent best management plan confirming that the practitioner has reviewed the plan, the information in the plan remains accurate, and no additional measures are necessary to prevent or minimize the discharge of fugitive dust from the facility. The addendum must be dated and signed by the licensed engineering practitioner.
- (2) The following are the requirements for a best management practices plan for fugitive dust control:
1. It must be dated, signed and sealed by a licensed engineering practitioner and set out the practitioner's name and licence number.
 2. The information in the plan must be accurate as of the date it is signed and sealed.
 3. It must contain a statement by the licensed engineering practitioner mentioned in paragraph 1 confirming that, based on the information provided to the practitioner, the information in the plan is accurate as of the date it is signed and sealed.
 4. It must contain a statement signed by the person engaging in the prescribed activity confirming that all information the person gave to the licensed engineering practitioner in order to prepare the plan was complete and accurate.
 5. It must set out the legal name of each owner of the facility and the name under which each owner carries on business, if it is not the owner's legal name.
 6. If the person who operates the facility is not an owner, the plan must set out the legal name of each person who operates the facility and the name under which each operator carries on business, if it is not the operator's legal name.
 7. It must set out the site address of the facility.
 8. It must set out the following with respect to each significant source of fugitive dust at the facility, including each source of fugitive dust that would be a significant source of fugitive dust if it were not controlled:
 - i. Possible causes of the fugitive dust.
 - ii. Measures and procedures implemented at the facility to prevent or minimize the discharge of fugitive dust into the air.
 - iii. Inspection, maintenance and monitoring procedures to ensure the adoption and continued implementation of measures and procedures to prevent or minimize the discharge of fugitive dust into the air.
 - iv. Identification of additional measures and procedures that should be implemented at the facility to prevent or minimize the discharge of fugitive dust into the air, if any, including:
 - A. A description of the additional measures to be implemented.
 - B. A description of the additional preventative procedures to be implemented.
 - C. If the additional preventative procedures are to be implemented periodically, the frequency with which the procedures should be implemented and material application rates, as applicable.
 - D. A schedule for the implementation of the additional measures, including training of workers.

- E. Inspection, maintenance and monitoring procedures to ensure the adoption and continued implementation of the additional measures.

Notice to submit best management practices plan for fugitive dust control

30. (1) The Director may give written notice to a person who engages in an activity prescribed by section 2 requiring the person to submit to the Director a best management practices plan for fugitive dust control that meets the requirements in subsection 29 (2) if,

- (a) the person discharges or causes or permits the discharge of fugitive dust into the air;
- (b) the Director has reasonable grounds to believe that the discharge may cause an adverse effect; and
- (c) either,
 - (i) the most recent EASR ESDM report in respect of the facility at which the person engages in the activity does not identify the source of fugitive dust, or
 - (ii) the best management practices plan for fugitive dust control does not identify the source as a significant source of fugitive dust.

(2) Before the Director gives a person a notice under this section, the Director shall give the person a draft of the notice, with reasons, and an opportunity to make written submissions to the Director during the period that ends 30 days after the draft is given.

- (3) A person to whom the Director has given written notice under subsection (1) shall,
 - (a) ensure that the best management practices plan is prepared in accordance with the Director's notice and submitted not later than the date specified in the notice; and
 - (b) comply with the requirements in subsection 29 (1) in respect of the best management practices plan.

OTHER ACTIVITY REQUIREMENTS

Small wood-fired combustors

31. For the purposes of clause 20.21 (1) (c) of the Act, a person who engages in an activity prescribed by section 2 of this Regulation that involves a small wood-fired combustor shall ensure that the following requirements are met:

- 1. The small wood-fired combustor must use an automated wood fuel feed system that meets the criteria set out in Chapter 5 of the EASR publication.
- 2. A wood fuel management plan in respect of the small wood-fired combustor must be prepared and implemented in accordance with Chapter 5 of the EASR publication.
- 3. The small wood-fired combustor must meet the design criteria set out in Chapter 5 of the EASR publication.
- 4. The small wood-fired combustor must be operated within the operational parameters set out in Chapter 5 of the EASR publication.
- 5. The operational parameters set out in Chapter 5 of the EASR publication must be measured using the measurement methods set out in that Chapter.
- 6. A statement setting out the results of an installation test in respect of the small wood-fired combustor conducted in accordance with Chapter 5 of the EASR publication must be available at all times when engaging in the activity.
- 7. A performance assessment of the small wood-fired combustor must be conducted in accordance with Chapter 5 of the EASR publication at least once per year, and the results of each assessment must be recorded.
- 8. Each record described in Chapter 5 of the EASR publication in respect of the small wood-fired combustor must be prepared and retained at the facility for the period set out in that Chapter or, if no retention period is set out in that Chapter, for 20 years after its creation.

Modifications to facility — requirement re reports

32. (1) Subject to subsections (2) and (3), a person who engages in an activity prescribed by section 2 shall ensure that before a modification is made to the facility at which the person engages in the activity, the person has available at the facility,

- (a) an EASR ESDM report that reflects the proposed modification and that meets the requirements in section 12;
- (b) an EASR ESDM report supplement that reflects the proposed modification and that meets the requirements in section 13;
- (c) a noise report that reflects the proposed modification and that meets the requirements in sections 17 to 22; and
- (d) an odour screening report that reflects the proposed modification and that meets the requirements in section 25.

(2) Clauses (1) (a) and (b) do not apply if a licensed engineering practitioner provides the person engaging in the activity with an addendum to the most recent EASR ESDM report setting out,

- (a) a description of the proposed modification; and
- (b) an explanation about why the licensed engineering practitioner is of the opinion that the information in the most recent EASR ESDM report and EASR ESDM report supplement will remain accurate after the modification is made.

(3) Clause (1) (c) does not apply if a licensed engineering practitioner provides the person engaging in the activity with an addendum to the most recent noise report setting out,

- (a) a description of the proposed modification; and
- (b) an explanation about why the licensed engineering practitioner is of the opinion that the information in the most recent noise report will remain accurate after the modification is made.

(4) Each addendum mentioned in subsections (2) and (3) must be dated and signed by the licenced engineering practitioner who provides it.

(5) For greater certainty,

- (a) an EASR ESDM report or an EASR ESDM report supplement prepared for the purpose of subsection (1) does not satisfy the requirements in paragraphs 1 to 3 of subsection 11 (1) until the facility is modified as set out in the report;
- (b) a noise report prepared for the purpose of subsection (1) does not satisfy the requirements in paragraphs 1 and 2 of section 16 until the facility is modified as set out in the report; and
- (c) an odour screening report prepared for the purpose of subsection (1) does not satisfy the requirements in paragraphs 1 and 2 of section 24 until the facility is modified as set out in the report.

(6) An Emissions Summary Table prepared as part of an EASR ESDM report for the purpose of subsection (1) may be filed in the Registry for the purpose of section 8.

Procedures

33. For the purposes of clause 20.21 (1) (c) of the Act, a person who engages in an activity prescribed by section 2 of this Regulation shall ensure that the following procedures are developed and implemented at the facility at which the person engages in the activity:

1. Operating, maintenance and monitoring procedures to ensure that the facility is operating within the operational parameters set out in the EASR ESDM report supplement in respect of the facility. The procedures must be developed and implemented having regard to the operating and maintenance procedures set out in the EASR ESDM report supplement and must include any recommendations from the manufacturers of sources of contaminant or of equipment related to sources of contaminant.
2. Operating, maintenance and monitoring procedures to ensure that the facility is operating within the operational parameters, if any, set out in the noise report in respect of the facility. The procedures must be developed and implemented having regard to the operating and maintenance procedures set out in the noise report and must include any recommendations from the manufacturers of sources of sound or of equipment related to sources of sound.
3. If a noise report in respect of the facility indicates that a noise abatement action plan referred to in subparagraph 8 v of subsection 17 (1) is being implemented at the facility, procedures to ensure that the noise abatement action plan is implemented.
4. Procedures setting out the frequency of inspections and scheduled preventative maintenance of sources of contaminant at the facility and equipment related to the sources of contaminant.
5. Procedures for record-keeping activities and logs relating to the operating, maintenance and monitoring procedures and plans.
6. Procedures to prevent and respond to spills from sources of contaminant.
7. Procedures for training persons who operate and maintain sources of contaminant and the equipment related to sources of contaminant.
8. Procedures for recording and responding to complaints that relate to the facility and the natural environment.

Complaints

34. A person who engages in an activity prescribed by section 2 and who receives a complaint that relates to the discharge of a contaminant into the air from the facility at which the person engages in the activity shall ensure that the Ministry's Spills Action Centre is immediately notified of the complaint.

PART IV MISCELLANEOUS

Records

- 35.** (1) A person who engages in an activity prescribed by section 2 shall,
- (a) subject to subsections (2), (3) and (4), retain each report, supplement and plan that the person is required to ensure is prepared under this Regulation at the facility to which the document relates for at least 20 years after the date the document is signed; and
 - (b) retain each addendum to a report mentioned in clause (a) at the facility to which the document relates for at least as long as the report mentioned in clause (a) is required to be kept.
- (2) Subsection (1) does not apply to a report prepared for the purpose of a proposed modification to a facility if the facility is not modified as set out in the report, but subsection (1) does apply with respect to an Emissions Summary Table mentioned in subsection 32 (6).
- (3) If a noise report includes a noise abatement action plan, the noise report shall be retained for at least 20 years after the date on which the implementation of the noise abatement action plan is completed.
- (4) Subsection (1) does not apply to a record required to be prepared under the following provisions if a different retention period is established with respect to the record under those provisions:
1. Paragraph 7 of section 16, in connection with sources of sound.
 2. Paragraph 9 of section 24, in connection with sources of odour.
 3. Paragraph 8 of section 31, in connection with small wood-fired combustors.
- (5) A person who engages in an activity prescribed by section 2 shall ensure that a record of each procedure required to be developed and implemented under section 33 is created and retained at the facility for at least five years after the day the procedure is no longer being implemented at the facility.
- (6) A person who engages in an activity prescribed by section 2 shall ensure that each of the following records is created and retained at the facility for at least five years after its creation:
1. A record of each comment the person receives from a provincial officer or the Director with respect to a plan, report or procedure required to be prepared under this Regulation that includes the comment, a description of whether or not the comment was addressed, and,
 - i. if the comment was addressed, a description of the actions taken to do so and the date each was implemented, and
 - ii. if the comment was not addressed, a description of the reasons it was not addressed.
 2. A record of the following information with respect to each complaint received by the person with respect to an activity engaged in at the facility or a discharge into the air from the facility, if the complaint relates to the natural environment:
 - i. The date and time when the complaint was received.
 - ii. A copy of the complaint, if it is a written complaint.
 - iii. A summary of the complaint, if it is not a written complaint.
 - iv. A summary of the measures taken, if any, to address the complaint.
- (7) A person who engages in an activity prescribed by section 2 shall ensure that a log containing the following information is created, updated and retained at the facility:
1. A description of each modification made to the facility and the date on which the modification was made.
 2. A description of each change in the manner in which an approved dispersion model is used in the preparation of an EASR ESDM report and the date on which the change occurred.
 3. A summary of how the information in paragraphs 1 and 2 has been reflected in the relevant report, supplement or plan.
- (8) A person who engages in an activity prescribed by section 2 that involves a boiler or heater shall ensure that a log containing the following information is created, updated and retained at the facility:
1. Each date the boiler or heater uses a non-primary fuel.
 2. For each date mentioned in paragraph 1, the duration, in hours, over which the boiler or heater uses the non-primary fuel.
- (9) An entry in a log shall be maintained for at least 20 years after the day the entry is made.

Form of reports, etc.

36. With respect to any report, plan, table or log that a person is required to prepare or any method that a person is required to use under this Regulation,

- (a) if the Director has approved a form the person shall prepare or use it in that form; and
- (b) if the Director has specified an electronic format the person shall prepare or use it in that format.

**PART V
COMMENCEMENT**

Commencement

37. This Regulation comes into force on the later of January 31, 2017 and the day it is filed.

SCHEDULE

NAICS codes, paragraph 1 of s. 2 (2) of the Regulation

1. (1) For the purposes of this Schedule, a facility is part of a class identified by a NAICS code if the facility is identified by a NAICS code that begins with a NAICS code listed in subsection (2).

(2) The following are the NAICS codes mentioned in paragraph 1 of subsection 2 (2) of the Regulation:

- 1. 2122 (Metal ore mining).
- 2. 2123 (Non-metallic mineral mining and quarrying).
- 3. 22132 (Sewage treatment facilities).
- 4. 31122 (Starch and vegetable fat and oil manufacturing).
- 5. 31161 (Animal slaughtering and processing).
- 6. 321111 (Sawmills (except shingle and shake mills)).
- 7. 3221 (Pulp, paper and paperboard mills).
- 8. 32411 (Petroleum refineries).
- 9. 32412 (Asphalt paving, roofing and saturated materials manufacturing).
- 10. 32419 (Other petroleum and coal product manufacturing).
- 11. 325 (Chemical manufacturing).
- 12. 32615 (Urethane and other foam product (except polystyrene) manufacturing).
- 13. 3262 (Rubber product manufacturing).
- 14. 32731 (Cement manufacturing).
- 15. 32732 (Ready-mix concrete manufacturing).
- 16. 32741 (Lime manufacturing).
- 17. 3279 (Other non-metallic mineral product manufacturing).
- 18. 331 (Primary metal manufacturing).
- 19. 3321 (Forging and stamping).
- 20. 33281 (Coating, engraving, cold and heat treating and allied activities).
- 21. 332999 (All other miscellaneous fabricated metal product manufacturing).
- 22. 336 (Transportation equipment manufacturing).
- 23. 56211 (Waste collection).

24. 5622 (Waste treatment and disposal).
25. 5629 (Remediation and other waste management services).
26. 81222 (Cemeteries and crematoria).

Texte d'information pour la Gazette de l'Ontario

La Gazette de l'Ontario paraît chaque samedi, et les annonces à y insérer doivent parvenir à ses bureaux le jeudi à 15h au plus tard, soit au moins neuf jours avant la parution du numéro dans lequel elles figureront. Pour les semaines incluant le lundi de Pâques, le 11 novembre et les congés statutaires, accordez une journée de surplus. Pour connaître l'horaire entre Noël et le Jour de l'An s'il vous plaît communiquez avec le bureau de La Gazette de l'Ontario au (416) 326-5310 ou par courriel à Gazette@ontario.ca

Tarifs publicitaires et soumission de format :

- 1) Envoyer les annonces dans le format Word.doc par courriel à Gazette@ontario.ca
- 2) Le tarif publicitaire pour la première insertion envoyée électroniquement est de 75,00\$ par espace-colonne jusqu'à un ¼ de page.
- 3) Pour chaque insertion supplémentaire commandée en même temps que l'insertion initiale, le tarif est 40,00\$
- 4) Les clients peuvent confirmer la publication d'une annonce en visitant le site web de La Gazette de l'Ontario www.ontario.ca/gazette ou en visionnant une copie imprimée à une bibliothèque locale.

Abonnement :

Le tarif d'abonnement annuel est de 126,50\$ + T.P.S. pour 52 ou 53 numéros hebdomadaires débutant le premier samedi du mois de janvier (payable à l'avance) L'inscription d'un nouvel abonnement au courant de l'année sera calculée de façon proportionnelle pour la première année. Un nouvel abonné peut commander des copies d'éditions précédentes de la Gazette au coût d'une copie individuelle si l'inventaire le permet.

Le remboursement pour l'annulation d'abonnement sera calculé de façon proportionnelle à partir de 50% ou moins selon la date. Pour obtenir de l'information sur l'abonnement ou les commandes s.v.p. téléphonez le (416) 326-5306 durant les heures de bureau.

Copies individuelles :

Des copies individuelles de la Gazette peuvent être commandées en direct en ligne au site www.serviceontario.ca/publications ou en téléphonant 1-800-668-9938.

Options de paiement :

Les paiements peuvent être effectués au moyen de la carte Visa ou MasterCard ou chèques ou mandats fait à l'ordre du MINISTRE DES FINANCES. Toute correspondance, notamment les changements d'adresse, doit être adressée à :

LA GAZETTE DE L'ONTARIO

Direction de la gestion des revenus, Publications Ontario

222, rue Jarvis, 8ème étage, Toronto, Ontario M74 0B6

Téléphone (416) 326-5306

Paiement – Annonces :

Pour le traitement rapide les clients peuvent faire leur paiement au moyen de la carte Visa ou MasterCard ou lorsqu'ils soumettent leurs annonces. Les frais peuvent également être facturés.

MINISTÈRES DU GOUVERNEMENT DE L'ONTARIO S.V.P. NOTEZ

Paiements par écriture de journal seulement. S.V.P. communiquez avec le bureau de la Gazette au 416 326-5310 ou à Gazette@ontario.ca.

Information Text for Ontario Gazette

The Ontario Gazette is published every Saturday. Advertisements/notices must be received no later than 3 pm on Thursday, 9 days before publication of the issue in which they should appear. For weeks including Easter Monday, November 11th or a statutory holiday allow an extra day. For the Christmas/New Year holiday schedule please contact the Gazette at (416) 326-5310 or by email at Gazette@ontario.ca

Advertising rates and submission formats:

- 1) Please submit all notices in a Word.doc format to: Gazette@ontario.ca
- 2) For a first insertion electronically submitted the basic rate is \$75 up to ¼ page.
- 3) For subsequent insertions of the same notice ordered at the same time the rate is \$40 each.
- 4) Clients may confirm publication of a notice by visiting The Ontario Gazette web site at: www.ontario.ca/gazette or by viewing a printed copy at a local library.

Subscriptions:

The annual subscription rate is \$126.50 + H.S.T. for 52 or 53 weekly issues beginning the first Saturday in January, payable in advance. In-year new subscriptions will be pro-rated for the first year. A new subscriber may order back issues of the Gazette at the single-copy rate as inventory permits.

Refunds for cancelled subscriptions will be pro-rated from 50% or less depending upon date. For subscription information/orders please call (416) 326-5306 during normal business hours.

Single Copies:

Individual Gazette copies may be ordered on-line through the website at www.serviceontario.ca/publications or by phone at 1-800-668-9938.

Payment Options:

Subscriptions may be paid by VISA or MasterCard or by Cheque or Money order payable to THE MINISTER OF FINANCE. All subscription enquiries and correspondence, including address changes, should be mailed to:

THE ONTARIO GAZETTE

Publications Ontario Financial Unit

222 Jarvis Street, 8th Floor, Toronto, Ontario M7A 0B6

Telephone: (416) 326-5306

Payment – Notices:

For fastest processing clients may pay by VISA or MasterCard when submitting notices. Charges may also be invoiced.

ONTARIO GOVERNMENT MINISTRIES PLEASE NOTE:

Payment by Journal Entry only. Please contact the Gazette office at 416 326-5310 or at Gazette@ontario.ca
