Notice of Minister of Health

Notice of Proposed Regulation

Personal Health Information Protection Act, 2004

The Minister of Health on behalf of the Government of Ontario invites public comments on an amending regulation proposed to be made under the *Personal Health Information Protection Act, 2004* ("PHIPA").

PHIPA came into force on November 1, 2004. Ontario Regulation 329/04 (General) made under PHIPA ("the PHIPA General Regulation") also came into force on November 1, 2004. PHIPA requires that the Minister publish a notice of the proposed amending regulation and allow 60 days for public comment, after which the Minister reports to the Lieutenant Governor in Council, who may then finalize the regulation with or without changes.

Content of Proposed Amending Regulation

If approved, the proposed regulation would amend the PHIPA General Regulation to expand the range of digital health services that patients are able to securely access via the Digital Health Identifier (DHI), further to Part V.2 of PHIPA.

Currently, the PHIPA General Regulation contains provisions that authorize Ontario Health (OH), in its role as the 'prescribed organization' under Part V.2 of PHIPA, to provide DHI activities, including validation and verification services, authentication services and account management services to enable the collection, use and disclosure of personal health information (PHI), including health card numbers, from an individual, with their express consent, to conduct such DHI activities and to support individuals' access to records of PHI. The existing regulation only contains provisions that would permit OH to enable patients to use the DHI to access PHI from the provincial Electronic Health Record.

If approved, the proposed amendment to the PHIPA General Regulation would establish a framework that could be leveraged to enable Ontarians to use the DHI to access additional patient-facing Digital Health Resources (as defined in the proposed regulation), where available. It would also establish a framework under which OH, in consultation with the Minister of Health, would be able to approve Digital Health Resources provided by health information custodians (where available) to leverage the DHI authentication services, so that individuals could use the DHI to log in to these tools and authenticate themselves. In consultation with the Minister of Health, OH would be required to create eligibility criteria and a process for the approval of Digital Health Resources seeking to use these authentication services. The eligibility criteria and approval process will be published on OH's website.

The proposed amending regulation would augment existing privacy protections by establishing additional requirements designed to support the secure delivery of DHI authentication services and Approved Digital Health Resources (as defined in the proposed regulation), including:

- Requirements that both OH, in its role in delivering DHI authentication services under Part V.2 of PHIPA, as well as Digital Health Resource Providers (as defined in the proposed amending regulation) leveraging these authentication services:
 - Handle patient data securely and with appropriate privacy and security safeguards, and
 - Only handle patient data for specific and limited purposes related to authentication services in the context of Approved Digital Health Resources.
- Provisions ensuring that OH, in its role in delivering DHI authentication services under Part V.2 of PHIPA, would be able to exchange patient information with Digital Health Resource Providers as necessary to support incident and breach management.

The public is invited to provide written comments on the proposed regulation over a 60-day period, commencing on **August 22, 2026 and ending on October 21, 2026**.

In providing comments, please consider whether the proposed amending regulation should be made, with or without changes. Furthermore, please consider whether any other regulatory amendments should be made to the PHIPA General Regulation, or if any legislative amendments should be contemplated. Please be as specific as possible, and provide a full rationale for any suggested changes or additions.

Avis de la ministre de la Santé

Avis de Projet de Règlement

Loi de 2004 sur la protection des renseignements personnels sur la santé

La ministre de la Santé, au nom du gouvernement de l'Ontario, invite le public à s'exprimer sur un règlement proposé en vertu de la *Loi de 2004 sur la protection des renseignements personnels sur la santé* (LPRPS).

La LPRPS est entrée en vigueur le 1^{er} novembre 2004. Le Règlement de l'Ontario 329/04, « Dispositions générales », pris en vertu de la LPRPS (le Règlement général de la LPRPS), est également entré en vigueur le 1^{er} novembre 2004. La LPRPS exige que la ministre publie un avis du projet de règlement modificatif et accorde 60 jours pour les commentaires du public, après quoi la ministre fait rapport au lieutenant-gouverneur en conseil, qui peut alors finaliser le règlement avec ou sans modifications.

Teneur du projet de règlement modificatif

S'il est approuvé, le projet de règlement modifierait le Règlement général de la LPRPS (Règl. de l'Ont. 329/04) pour élargir l'éventail des services de cybersanté auxquels les patients peuvent accéder d'une manière sécuritaire au moyen de l'Identifiant De Santé Numérique (ISN), en relation avec la partie V.2 de la LPRPS.

À l'heure actuelle, le Règlement général de la LPRPS contient des dispositions qui autorisent Santé Ontario (SO), en sa qualité d'« organisation prescrite » en vertu de la partie V.2 de la LPRPS, à fournir des activités liées aux ISN, dont des services de validation et de vérification, et des services d'authentification et de gestion des comptes pour permettre de recueillir, d'utiliser et de divulguer des renseignements personnels sur la santé (RPS), notamment les numéros de carte Santé, d'un particulier, avec son consentement express, pour mener des activités liées aux ISN et soutenir l'accès des particuliers aux dossiers des ISN. Le règlement existant contient uniquement des dispositions qui permettraient à SO d'autoriser des patients à utiliser l'ISN pour accéder à des RPS à partir du dossier de santé électronique provincial.

Si elle est approuvée, la modification proposée au Règlement général de la LPRPS établirait un cadre qui pourrait être mis à profit pour permettre aux Ontariens d'utiliser l'ISN pour accéder à davantage de ressources de santé numériques en contact avec les patients (comme définies dans le projet de règlement), là où elles sont disponibles. Cela établirait aussi un cadre en vertu duquel SO, en consultation avec la ministre de la Santé, serait capable d'approuver des ressources de santé numériques fournies par des dépositaires d'informations sur la santé (lorsqu'ils sont disponibles) pour tirer parti des services d'authentification des ISN, de sorte que les particuliers pourraient utiliser l'ISN pour se connecter à ces outils et s'authentifier. En consultation avec la ministre de la Santé, SO serait tenu de créer des critères d'admissibilité et un processus pour l'approbation des ressources de santé numériques cherchant à utiliser ces services d'authentification. Les critères d'admissibilité et le processus d'approbation seront publiés sur le site Web de SO.

Le projet de règlement modificatif augmenterait les protections de la confidentialité existantes en établissant des exigences supplémentaires conçues pour soutenir la prestation sécuritaire de services d'authentification des ISN et de ressources de santé numériques approuvées (comme définies dans le projet de règlement), notamment :

- Exigences comme quoi SO, dans son rôle consistant à fournir des services d'authentification des ISN en vertu de la partie V.2 de la LPRPS, ainsi que les fournisseurs de ressources de santé numériques (tels que définis dans le projet de règlement modificatif) mettant à profit ces services d'authentification :
 - Traitent les données des patients d'une manière sécuritaire et avec des mesures de protection de la confidentialité et de sécurité appropriées,
 - Ne traitent les données des patients qu'à des fins spécifiques et limitées liées aux services d'authentification dans le contexte des ressources de santé numériques approuvées.
- Dispositions assurant que SO, dans le cadre de son rôle consistant à fournir des services d'authentification des ISN en vertu de la partie V.2 de la LPRPS, serait capable d'échanger les renseignements des patients avec les fournisseurs de ressources de santé numériques selon ce qui est nécessaire pour soutenir la gestion des incidents et des violations de données.

Le public est invité à fournir des commentaires écrits sur le projet de règlement pendant une période de 60 jours, **du 22 août au 21 octobre 2026**.

En fournissant des commentaires, veuillez tenir compte de la pertinence du projet de règlement modificateur, avec ou sans changements, et si d'autres modifications réglementaires devraient être apportées au Règlement général de la LPRPS ou si des modifications législatives devraient être envisagées. Il faut être aussi précis que possible et fournir une justification complète pour tout changement ou ajout suggéré.
